Ambassador Wilson Requests the Release of an American Correspondent.

The skyline of Omaha before the storm.

AWFUL HAVOC BY A FUNNEL SHAPED CLOUD AS WITNESSED FROM AN OBSERVATION CAR.

(BY A. P. NIGHT WIRE TO THE TIMES.)
CHICAGO, March 24.—Stories were related in Chicago today by eye-witnesses of the tornado which yesterday swept over parts of Nebraska, Iowa and Illinois, killing and injuring hundreds.
A word of these stories had not faded from the memory of the city of Chicago, when a great dark cloud, skipping fantastically in its work of destruction, in several villages they helped pick up the dead and dying, and in the city of Chicago, they were seen in the sky.
The wounded and slain—mutilated, groaning, dying—were placed on the plough-covered seats and in the car until the train reached Omaha. Here they were taken to the hospital and the morgue.
On the way in the injured told heart-rending tales of suffering and narrow escapes, which seemed to them miraculous.
VIEWED FROM A CAR.
William Koon, president of an automobile company of Lincoln, Neb., gave a graphic description of the storm as he viewed it from the platform of the observation car. For miles it seemed as if the train were being pursued by the storm.
"We were approaching Hastings, Neb., when I first noticed a strange, copper-colored cloud mounting toward the sky," said Koon. "Before that it had been clear. The cloud grew rapidly and was traveling with tremendous speed toward Hastings. It assumed the form of a funnel and the air was filled with a curious noise, like the sound of a train passing over a trestle, but very piercing. Then the funnel seemed to grow black and the smaller end—that near the earth—was about half a mile in diameter. It swished across the railroad track and swept toward the little town."
"Then the storm struck the town. Houses collapsed, the roofs went sailing away and the sides fell in. The passengers and as though glued to their seats when the cloud struck. Then, as they comprehended the destruction wrought, a cry of horror went up from everyone. It was a fearful sight."
"The engineer brought the train to a stop and the passengers ran over to the wreckage of the houses. We could hear the groans of dying men and the wails and shrieks of injured women and children. I entered a house, and beneath me lay a woman. I looked and I knew that she was dead. We got all of the injured out of the ruins and brought them to the train. We were about to leave when our attention was called to a little house some distance from the others. It had been wrecked and moved from its foundation, but we found a mother and her little baby lying upon a bed uninjured. Another man was in a basement. His house had been carried away bodily and he was left standing with a very surprised look on his face, in the open, uninjured."
"I recall that there was a big thrashing machine standing near one of the houses, and when the cloud struck it shot straight up into the air and was carried about forty rods."

OVER TWO HUNDRED DEAD BY THE OMAHA CYCLONE. Three Thousand Buildings Damaged or Destroyed by Tornado.

From Fifteen Hundred to Two Thousand Persons Made Homeless by Sabbath Day Havoc—State and Federal Troops Patrolling the Ruins While Citizens Organize Relief Committees.

(BY A. P. NIGHT WIRE TO THE TIMES.)
WASHINGTON, March 24.—Following closely the two storms which swept death and destruction through the city of Omaha and the Middle West, a severe storm is predicted to cross over the east Tuesday night and Wednesday. Storm warnings from Hattiesburg to Eastport, and cold wave warnings in the west lake region, the middle and upper Mississippi Valley have been issued. No decided fall in temperature is predicted for the East until after the passage of the new western storm. Showers are predicted to fall in the time until the storm arrives.

CHICAGO, March 24.—Totals of the dead and injured in the track of Sunday's storm are as follows, according to reports received tonight:

	Dead.	Injured.
Omaha and suburbs.....	132	250
Terre Haute, Ind.....	18	230
Chicago.....	5	40
Yutan, Neb.....	16	—
Berlin, Neb.....	7	—
Council Bluffs, Iowa.....	12	10
Barker, Iowa.....	3	10
Wesley, Iowa.....	2	—
Noola, Iowa.....	2	—
Glenwood, Iowa.....	6	—
Becke, Iowa.....	—	—
Malvern, Iowa.....	—	—
Walton, Ill.....	1	—
Stirling, Ill.....	1	—
Traverse City, Mich.....	1	—
Fort St. Vrain.....	1	—
Total dead, 229; injured, 494.		

OMAHA (Neb.) March 24.—More than 200 persons were killed and 400 were injured in a windstorm that demolished 450 buildings, damaged hundreds of other buildings and caused a monetary loss of \$2,000,000, according to reports available up to a late hour tonight from the main path of the tornado in and near Omaha.

Most of the casualties were in Omaha, which was struck as never before. Nearby towns in Nebraska and across the Missouri River in Iowa also suffered severely. Wires were snapped in all directions and it took many hours to gather and circulate the news of the disaster.
Fire broke out in the debris of many wrecked buildings in the Nebraska metropolis, and these were manacled for some time as the fire companies were hindered by fallen walls and blocked streets. A heavy rain followed the wind, however, and drenched out the flames.
Tonight the number of known dead with the area covered by the storm is estimated at 202, of whom 132 were residents of Omaha. The remaining dead are scattered over a considerable area, with Council Bluffs reporting 12; Yutan, Neb., 16; Berlin, Neb., 7; Glenwood, Iowa, 6; Barker, Iowa, 3; and Bartlett, Iowa, 2. The same cities and towns report as aggregate of 440 injured, and 450 homes demolished.

THE MONEY LOSS.
The monetary loss will, it is estimated, run from \$5,000,000 to \$12,000,000. Perhaps 1500 persons are homeless.
Aside from this, 3000 buildings were more or less damaged, many of these being church edifices and school buildings. Eight of Omaha's public schools were wrecked.

All forms of communication were almost annihilated by the wind and only two or three wires were in working condition when daylight relieved a night of high tension, which at times almost became panic. Soldiers, state and national troops, poured into the city during the day to aid in bringing order out of what for twenty hours had been chaos. Tonight these guardians of the peace are patrolling the residence districts, aiding the police to maintain order and relieve such cases of suffering as come to their notice.

THE SACRIFICE OF LIFE.
The greatest loss of life occurred sectionally. Three points offered the greatest sacrifice. These were at Fortieth and Farnum streets, where a crowd had sought refuge in a garage; at Twenty-fourth and Lake streets, where a moving picture theater was demolished, and at Twenty-fourth and Willis avenues, where a poolroom had attracted a crowd. In each of these places the fatalities were large.

No such catastrophe had ever before visited the city, but the people rose to the situation, and measures of relief were organized promptly.
Trinity Cathedral, parish of the Omaha Episcopal Church, was temporarily turned into a coffee house. Catholic priests visited homes that had

WORLD'S NEWS IN TODAY'S TIMES.

WORLD'S NEWS IN TODAY'S TIMES.
MEXICO CITY, March 24.—[Exclusive Dispatch.] Because of the reports printed in the United States that conditions were alarming in Mexico City, and to curb any tendency on the part of correspondents here representing as the government believe, certain interests would like to see another outbreak in the capital, orders were issued today restricting the censorship of all dispatches, and limiting those sent by the censor to a certain number of words.
Conflicting reports came today from the north, of victories and defeats for the Federal troops. Several reports of activities by the Zapatistas in the state of Mexico caused the war to reach another strong detachment in that section.
Ambassador Wilson today requested the authorities to release a certain American correspondent who had been arrested in that section.
(Continued on Seventh Page.)

PROPERTY DAMAGE IN OMAHA IS TWELVE MILLION DOLLARS.

(BY A. P. NIGHT WIRE TO THE TIMES.)
OMAHA (Neb.) March 24.—It was late today before all the details of the storm with accompanying wreckage were known, even within this city itself. The pathway of the storm, from three to seven blocks in width, cut a swath twenty-four blocks long, first through an exclusive residence section, and then through a business section, and finally through a residential section.
The destruction began with the million-dollar houses in the exclusive West Park and Bemis Park district. Few lives were lost in this exclusive district, but farther northwest the storm struck the business section, and large numbers of deaths resulted.
Rescue work started as soon as the residents of the town were able to hurry to the stricken district, but the night's work was by the light of lanterns, and little was accomplished.
The storm in passing took down all the wires in the path of the tornado, and the electric power was shut off immediately to prevent further loss of life. With the arrival of daylight came a trail of debris from the city of Lincoln, and with the presence in the city of Gov. McPherson, the work was systematic and tonight indications are that one more day will end the search for bodies and will even witness a general attempt at rebuilding work.
THREE EYES.

IOWA, INDIANA AND ILLINOIS LASHED BY TAIL OF THE STORM.

(BY A. P. NIGHT WIRE TO THE TIMES.)
COUNCIL BLUFFS, March 24.—Each succeeding hour tonight tended to increase the list of dead and injured due to the tornado of Easter Sunday. Every town in Iowa possible to reach by long-distance telephone throughout the day added to the enormity of the destruction. It is not possible even to begin anything like an accurate estimate of the property loss, but it is sure to run into the hundreds of thousands of dollars.
The town of Bartlett added three to the death list. All were members of the family of Edwin Dendean. Dendean himself is said to have been killed with two other members of his family, but their first names were not learned.
At Beebe, Mrs. Kate Cavanaugh, mother of Mrs. Lee Hopper, whose two daughters were killed at Nola, and who was herself seriously hurt, was probably fatally injured. A peculiar feature of the Hopper family's awful experience in the storm was the fact that the father was carried for more than a quarter of a mile in the tornado and was found unconscious with nearly all of the clothing torn from his body.
Heavy property loss was reported from towns of Magnolia, California Junction, Blackburn, Missouri Valley and Malvern.

BLOW FALLS SO SWIFTLY, HOUSES FALL LIKE CARDS.

Three Thousand Are Rendered Homeless and Over Five Hundred Dwellings Are Destroyed—State Will Render Assistance and Financiers Plan to Lend Money to the Needy Without Interest.

(BY FEDERAL (WIRELESS) LINE TO THE TIMES.)
OMAHA (Neb.) March 24.—[Special Dispatch.] At a late hour tonight it was estimated that the death toll will reach 210 at least and that the number of persons injured will be well into the 500 mark. Over 3000 persons are homeless, and it is roughly estimated that over 500 homes have been destroyed.
Slowly but surely the people of Omaha are having their eyes opened to the tremendous extent of the damage wrought by the tornado.
The blow came, as it were, in a twinkling of the eye—so swiftly and so deadly and destructive that its victims did not know what had overtaken them.
The tornado came just at dusk, accompanied by a deafening din and roar, collapsing houses like card-board and tossing all sorts of objects

Governor Orders Out Troops to Patrol District.

...A. D. MONT WIRE TO THE TIMES
TERRA HAUTE, (Ind.), May 24.—
 Eighteen dead, victims of the terrible
 which swept the southern part of
 Terra Haute and Vigo county last
 night, were identified today and
 350 injured were being
 for in improvised hospitals. Some
 more bodies are expected to be
 when the ruins of 300 houses, leveled
 by the storm, have been cleared away.
 At the request of Mayor
 Gov. Ralston today ordered out
 of the Indiana National Guard
 patrol the devastated district and
 in the rescue work.

THE FATALITY INQUIRY

[illegible]

When he arose and looked around there was not a house in sight. Aside from a few bruises he was unhurt.

...and when the troops had to seek shelter. He had married his wife thirty. The battle when the front gate had been taken I don't know this morning and I don't tonight.

"I am surprised that the demonstrators without the superior name of the strikers for another day, a former Federal hold strong my home—had plenty of money, but the terrible loss of his utility and rifle fire.

"Many tanks were moved by the demonstrators to take sides

...to soldiers lost sixty killed and thirty wounded. He had married his wife thirty. The battle when the front gate had been taken I don't know this morning and I don't tonight.

"I am surprised that the demonstrators without the superior name of the strikers for another day, a former Federal hold strong my home—had plenty of money, but the terrible loss of his utility and rifle fire.

"Many tanks were moved by the demonstrators to take sides

...the fire when the building was demolished, but the doctor, lying on the mattress of the bed, was carried across the street and thrown safely on the sidewalk.

Mr. and Mrs. Charlie Brown, of the home, were also killed. Mrs. Brown was killed when they rushed into the debris of the cottage. She found their two babies in the room and carried them to the street.

Mr. and Mrs. Charlie Brown, who were trapped across several feet, returned to their home to find the remains of their two children in the crib. The child did not survive until after it had been carried out and laid in an automobile.

WIFE OF BLIND MAN, severely injured by explosion of gas sleeping-rooms in two-story hotel.

Seriously Injured: Mrs. Fred Nuttman, Roy Toney, Mrs. Roy Young, Mrs. Roy Toney.

ST. LOUIS, Mo., Jan. 31—Thirty-three persons rushed home to find their houses in ruins. Their wife, her aunt, Edward Hargott, of Chicago, who was with them, saw them.

The explosion occurred at about 8 o'clock last night in the two-story Hotel St. Louis, which is being built by the St. Louis Building Co., under the management of J. M. Hargott, president of the company. The building operations progress.

Building operations are under way on Granada Avenue, Alhambra.

The sale of the first 10 bungalows will mean the paying of the first dividend. Order shares now.

HOLLYWOOD, HUNTINGTON PARK, ALHAMBRA or PASADENA.

The acquiring of this new beautiful addition at SANTA MONICA brings our properties close to the one-half million mark.

CITY BUILDERS' INVESTMENT COMPANY'S SHARES buying 1% and advancing rapidly—offer the big investment opportunity with the building boom.

for instance

<p>Mrs. John Miller. Mrs. Loretta Tiede. Grover Rodgers. Mrs. Carl Home. The storm struck the village at 6:30 and traveled in a southerly direction. Every business and residence was hit.</p>	<p>Mr. Miller was hurt, how severely is not told. Mrs. Tiede said: "The storm came like a rushing torrent of water. It came from the south and passed over me. I went to my attic and hid."</p>	<p>No case of contagious blood poison is ever cured until the last particle of virus has been removed from the circula- tion.</p>	<p>Sent on request.</p>	<p>LOS ANGELES BUILDING COMPANY. The bodies of the victims were found in the church, which is being used temporarily as a morgue. It is believed that the disease did much damage in the districts before and after the village.

THE ARMY SURRENDERS.

Commander Men Lay Down Their Arms to the Enemy.

The enemy drives the army back and perfectly purifies the blood, and leaves this vital fluid as fresh, rich and healthy as it was before the destructive virus of contagious blood poison entered the circulation. R. S. S. quickly takes effect on the blood, and the disease is cured.

Save the Citrus Groves

How Americans May Be Handed a Lemon, and a Foreign One at That.

Popular Writer on Economics of Development Sounds Timely Warning in

SUNSET MAGAZINE

"At mention of the citrus growing industry of the Far West, one thinks of one of the great and lemon groves in California—a sort of colored picture-book story of sunlight and orchards that are as picturesque as gardens. Or, if your mind has an economic bent, then you think of the most perfect system of co-operation known among the producers of the United States. But how many people who know of the picture-book story of the citrus groves in sunny California also know about a 'dash fund' of \$200,000 a year manipulated by the Lemon Trust of Italy to smother the system of co-operation that contains these full citrus groves of the West?" writes Miss Anna C. Laut in the April issue of Sunset Magazine. Incidentally, the color illustrations in her article ought to make the rankest frostbitten lemonade in New York the power to kill our own industry and then advance prices on the greatly needed citrus fruits until they are practically prohibitive as far as the greater proportion of American consumers is concerned.

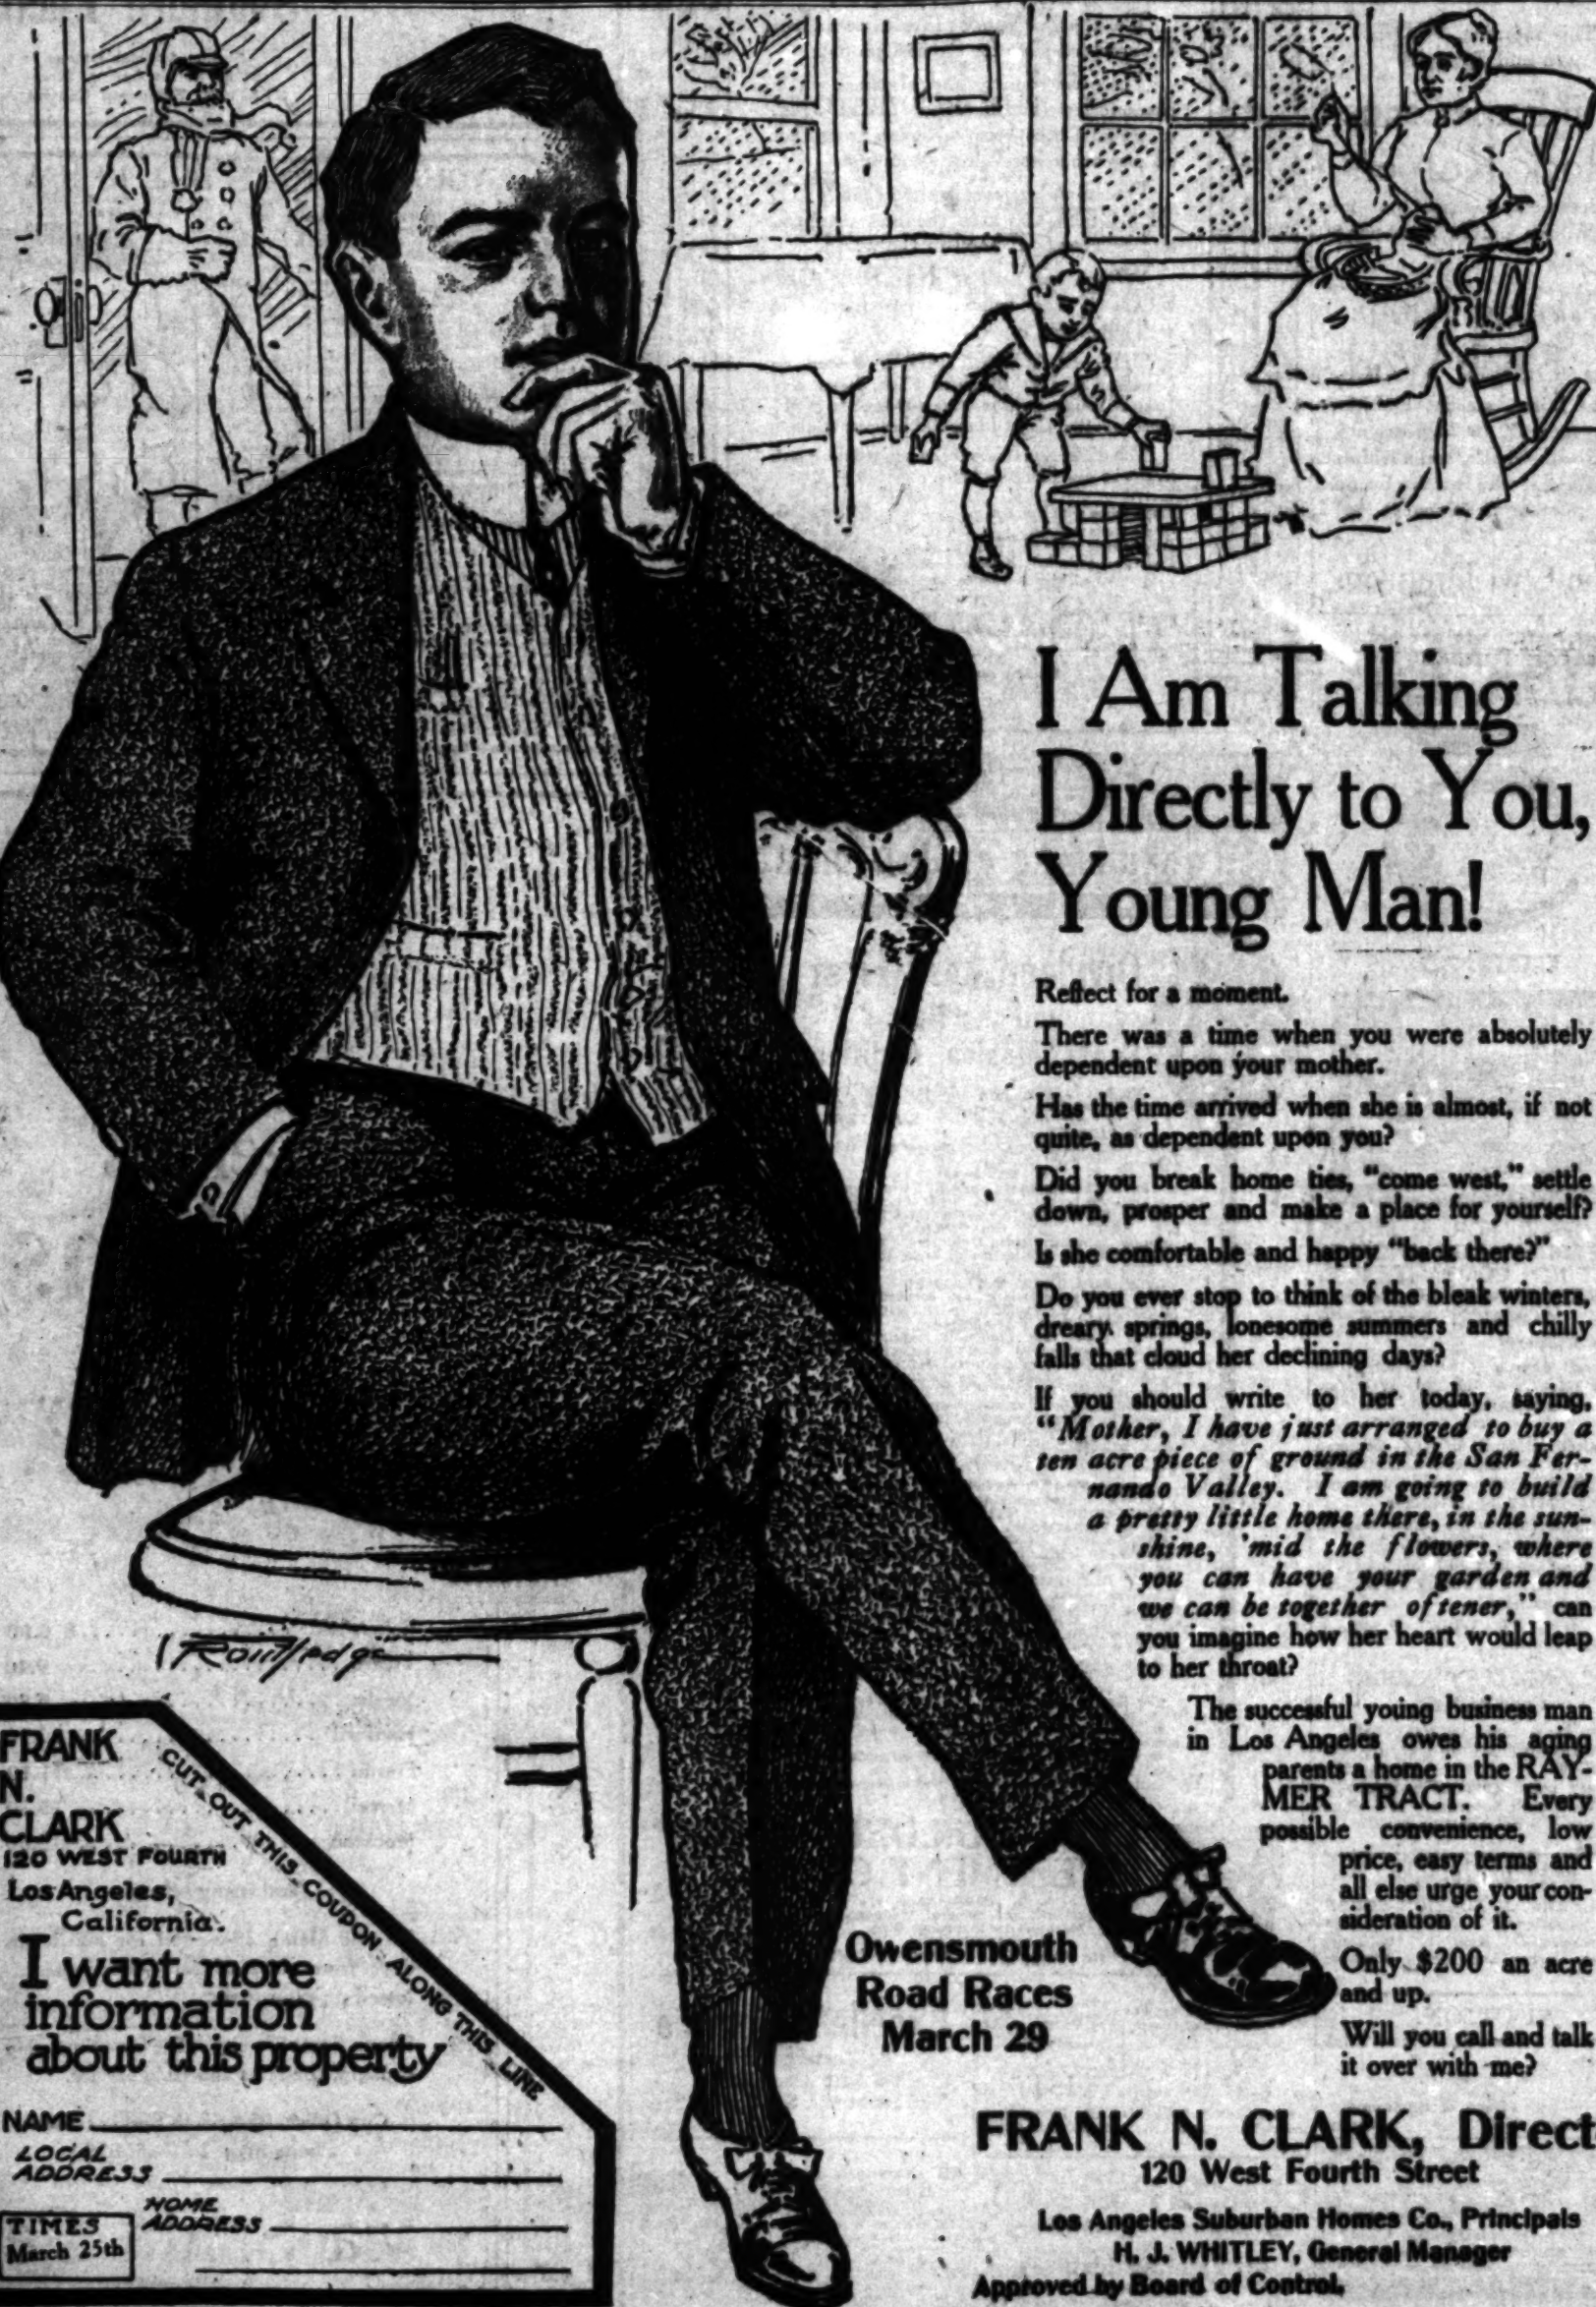

Every loyal Californian should read Miss Laut's article and pass it on to eastern friends and relatives with request that they "get busy" in instructing their representatives in Congress to protect the American lemon.

You Will Find All This in the April Issue—Now on Sale

which is also brimful of good fiction, good western Americana, good poetry, Wright's Pulse of the West, beautifully illustrated throughout as only our Magazine knows how to illustrate—the entire color of California.

WE ARE LENDING OUR BEST EFFORTS TO AID THE CITRUS INDUSTRY. HELP US.

Home-seekers and Tourists Especially Welcome at Our Big Information Bureau and Exhibition Hall, Ground Floor Pacific Electric Building

I Am Talking Directly to You, Young Man!

Reflect for a moment.

There was a time when you were absolutely dependent upon your mother.

Has the time arrived when she is almost, if not quite, as dependent upon you?

Did you break home ties, "come west," settle down, prosper and make a place for yourself?

Is she comfortable and happy "back there?"

Do you ever stop to think of the bleak winters, dreary springs, lonesome summers and chilly falls that cloud her declining days?

If you should write to her today, saying, "Mother, I have just arranged to buy a ten acre piece of ground in the San Fernando Valley. I am going to build a pretty little home there, in the sunshine, 'mid the flowers, where you can have your garden and we can be together oftener," can you imagine how her heart would leap to her throat?

The successful young business man in Los Angeles owes his aging parents a home in the RAYMER TRACT. Every possible convenience, low price, easy terms and all else urge your consideration of it.

Only \$200 an acre and up.

Will you call and talk it over with me?

CONROBORATES NEBULAR THEORY.

DISCOVERY OF PROF. LOWELL CONFIRMS LARLAGE.

Flagstaff, Arizona, March 24.—(By A. P. Night Wire.)—Prof. Percival Lowell, on his way to New York, the nebular theory of Laplace, which in recent years has been somewhat discredited in certain astronomical quarters, received a strong corroboration; according to a statement issued from Flagstaff, Arizona, where Prof. Lowell Observatory has established the fact that the nebulae consist of clouds of star dust enveloped in gas.

(BY A. P. NIGHT WIRE TO THE TIMES.)

CHICAGO, March 24.—(By A. P. Night Wire.)—Important details of the recent discovery concerning the nebular hypothesis of solar systems by Dr. V. D. Slipher of the Lowell Observatory, Flagstaff, Ariz., were made known here last night on the arrival of Prof. Percival Lowell on his way to New York. The nebular theory of Laplace, which in recent years has been somewhat discredited in certain astronomical quarters, received a strong corroboration; according to a statement issued from Flagstaff, Arizona, where Prof. Lowell Observatory has established the fact that the nebulae consist of clouds of star dust enveloped in gas.

PROF. LOWELL'S STATEMENT.

"This is the first step in the evolution of a solar system," Prof. Lowell's statement reads. "The statement follows: 'It has been discovered at the Lowell Observatory by Dr. V. D. Slipher, through the spectroscopic observations, that the nebulae in the Pleiades is illuminated by reflected light of the neighboring stars and that this nebula is in reality a cloud of finely divided matter such as the investigations of Sir Norman Lockyer, Sir George Darwin and Prof. Hugo Salpeter, had them to suppose might exist in space.'

"The proof of this consists in the fact that, with the slit of the spectrograph so placed as to include the star and the wings of nebulae in its neighborhood, the resulting spectrogram shows the spectrum of the star surrounded by a faint continuous spectrum where the nebulae absorb the light of the star and the surrounding gas. This indicates that the nebula consists of cold matter reflecting the light it receives from the star and surrounded by cool gases. Or, in other words, that we see here a cloud of nebular matter enveloped in lighter particles of gas. This is the first step in the evolution of a solar system.

IMPORTANCE OF DISCOVERY.

"The importance of this discovery, which is corroborated by other Flagstaff observations of nebulae and star clusters, will be seen when it is pointed out that it bears directly upon the nature of thousands of other nebulae and suggests that many of them may closely reproduce the hypothetical nebulae assumed by Laplace as the basis for his nebular hypothesis.

"Spectroscopic observations of numerous observations are interested in the discovery and are working on collateral investigations."

AUTO BANDITS GET LIFE.

CHICAGO, March 24.—James Perry, Claude P. Rose and Thomas Burke, three of the automobile bandits recently placed on trial, pleaded guilty today and were sentenced to indeterminate sentences ranging from one year to life.

Oakland Banker Ill.

OAKLAND, March 24.—(By A. P. Night Wire.) Joseph F. Carleton, president of a local banking institution and one of the best-known men of Oakland, is critically ill at a local hospital, where he was operated on yesterday for an attack of acute appendicitis.

Property Damage.

(Continued from First Page.)

room on the second floor of our home, No. 4234 Dewey avenue," she said. "When the raging winds hit the house it toppled over as if built of pasteboard. Mother and myself were buried in the wreckage. As soon as I could pull myself from the debris I began a search for her. Board after board of floor was torn up until at last I found her. She was cut and bleeding. Finally I reached her. I bent down to raise her, but she was dead."

Dry-eyed and calm, the girl related the story, justifying it with the remark that it was the work of Providence.

A coincidence among the injured at the Child Institute was that all were badly cut about the face, while the bodies were comparatively free from wounds. Ugly-looking scalp wounds marked every injury.

THE FATE OF DUNCAN.

The home of George J. Duncan of the Omaha Bee was completely destroyed. Mr. Duncan died at a hospital this afternoon. Mrs. Duncan is in a critical condition.

At the home of Patrick Hyman, a party in celebration of his 51st birthday was in progress. The guests had just begun dinner and were drinking a toast to the health of their host when the storm swept the house away. "The party had just begun dinner," said Mr. Hyman. "The young people were making merry, and old as I am, I had entered into the spirit. Suddenly there was a roaring sound. The next minute the house was in ruins. I wriggled around and out, and aided the others in escaping."

When the storm had passed Mr. and Mrs. C. M. Williams found themselves buried under a mass of broken and twisted furniture and tin cans which had been blown into the house. They extricated themselves with difficulty.

John Wright, a railroad watchman, saved his life by the fact that he went to work a half-hour ahead of time, because that he would get wet if he did not hurry.

Little Gladys Crook was rescued after a house had been blown over her and she had been imprisoned for more than half an hour. It was necessary to chop a large hole in the side of the house before the little girl, whose cries for help had brought rescuers, was taken out, uninjured.

CHIEF DANIELS, his wife and their two children met death together. In the ruins of their home were found the four bodies. The little girls were found clamped in the arms of their mother, while the body of the father was over them, as if he had tried to shield them with his own body.

Mary Knudsen, a servant girl, was blown out of the home of her employer and badly frightened, ran all the way downtown to fall fainting in front of a hotel. Her incoherent story was the first news of the disaster received in the downtown section.

The body of an unidentified child was found in the ruins of two houses with a little rag doll still tucked under her arm.

When C. Baber discovered the crushed and almost unrecognizable body of his wife in the ruins of an apartment-house he stood down the street, shrieking at the top of his voice. He is missing.

W. H. Smith, a private of the signal corps from Ft. Omaha, became insane after being caught in a number of bodies, and collapsed. When he had regained consciousness it was necessary to take him to the Post Hospital, where he was placed under restraint.

Last night wire communication with the outside world was entirely cut off. The only available report of the disaster was taken to Lincoln by train and there filed over the Associated Press wires. Telephone and telegraph wires along all the railroads were down.

Last night at midnight the battle of the linemen commenced and at 1 o'clock tonight two new wires were working out of the city. Commercial bulletins were sent to nearby cities in the cars of operators to be sent from there. The wires continued in an apparently hopeless tangle between Omaha and points directly east. Three miles of wire were down directly east of Council Bluffs, while at several other points in the territory between Omaha and Chicago the lines were paralyzed.

Railroading under these conditions was a return to first principles, and trains between Omaha and Chicago crawled along with flagmen walking before them, taking the place of train dispatchers and block signals. The first train into Omaha from the East was five hours late and carried more than 100 linemen to points east of this city.

Seattle Sends Offer.

SEATTLE, March 24.—(By A. P. Night Wire.) The Chamber of Commerce today sent a message of sympathy to the Omaha Chamber of Commerce offering financial or other aid that might be needed.

Washable Ratines
Surprisingly Smart Styles

Another new lot of this popular dress fabric arrived in time to go on sale today.

Little stripes and hair lines of blue, lavender and black on white grounds; 27 inches wide, 65c a yard. Bordered styles in gray and pink and blue—handsome open work borders seven inches wide—extremely pretty for summer dresses. 40 inch, \$1.25 a yard.

Bathing Suits and Caps
Smartest Newest Styles

Whether you seek the conventional or the ultra extreme in bathing costumes, you'll find it here, and in assortment broad enough to make choosing the matter of but a moment.

Suits of Satin or Mohair in plain blues or black or fancy stripes. Many have pipings of pretty Bulgarian colors. Some have knitted tights, others regulation bloomers. Also we carry the tight separately to wear with your own suit. Don't fail to look over our new line of Bathing Caps.

Special Sale Steamer Rugs

The purchase of a sample line of Steamer Rugs makes possible this sale at about 25% under regular value. In the lot are plaids of nearly every Scottish color: blues, greens, reds, in all their various combinations. Sale price \$5, \$7.50 and \$10.

With them came a few Cashmere Shawls of beautiful soft Highland wool: these in plaids and small checks.

Millinery Exclusiveness

As a woman's hat forms by far the most important single item of her outfit, no wonder she is particular about its style, its individuality and becomingness! In the assortments we show there is a model to suit every type, a style to satisfy every taste. And each is exclusive.

Dozens of smart tailored hats up from \$10.00

with latest changes, is reported in

ENTIRE CITY ADMINISTRATION IS VOTED OUT.

As the Ballots Run.

"MUNICIPAL NEWS" KILLED BY THE TAXPAYERS, TOO.

First Seven Amendments Are Ratified, Nos. Eight and Seventeen Defeated, No. Nine Apparently Carried and No. Sixteen Lost—No Initiative.

AT 2:30 o'clock this morning the defeat of the Socialists' proportional representation amendment was conceded by at least 200 votes. The total vote cast will not exceed 33,000. Two hundred and ninety-nine of the city's 455 precincts had been canvassed up to 2:30 o'clock and showed the following results on the amendments. These precincts are representative of the entire municipality and the vote throughout is doubtless on the same basis:

Amendment—	Yes.	No.
1	14,761	8,781
2	13,533	8,415
3	14,530	8,472
4	14,166	8,861
5	13,645	9,191
6	12,722	9,328
7	14,802	7,942
8	10,826	10,722
9	10,375	9,820
10	10,323	9,502
11	17,089	4,196
12	18,154	3,790
13	14,021	8,293
14	14,021	8,293
15	10,079	12,000
16	8,995	13,567
17	9,185	13,847
18	9,187	13,745
19	6,781	15,404

Los Angeles taxpayers voted decisively yesterday to oust the entire Good Government City administration from the Mayor down. The money-eating Municipal News was also enthusiastically voted out of existence. Proposed amendments Nos. 1 to 17 inclusive are ratified by a clear majority. Amendment No. 8, providing for an appointive harbor commission, is apparently adopted. Amendments Nos. 10, 11, 12, 13 and 14 are ratified. No. 10 deals with bonds for city officials; No. 11 relates to the sale of real estate by the city on terms; Nos. 12 and 13 provide for establishment of pension funds for policemen and firemen; No. 14 abolishes the Municipal News. No. 15, increasing the powers of the Park Commission, is defeated. Amendment No. 16, providing for the election of a harbor commission on salary, is defeated. Amendment No. 17, providing for the district plan of electing councilmen, is defeated. The dance-hall initiative ordinance is defeated by a vote approximating 2 1/2 to 1. The count was exceedingly slow and tedious because of the many propositions voted upon.

THE total vote fell far short of the expectations of the leaders of the campaign, less than 32,000 ballots being cast. E. C. Johnson and Job Harriman, Socialist leaders, were at the City Hall during the evening, eagerly scanning the returns. Each admitted that the outlook for No. 8, the proportional representation amendment, was exceedingly dubious but declared that the fight for its introduction would be carried on. F. F. Doherty, chairman of the Citizens' Publicity Committee, attributes the defeat of the harbor and district plan amendment to a lack of time in which to educate the people in their merit, and to the action of the Chamber of Commerce and some members of the Citizens Committee in repudiating them at the last moment.

NEW CAMPAIGN. By the adoption of amendment No. 7 the city will be almost immediately thrown into the throes of a municipal campaign every six months, including the entire Board of Education, being voted out of office. Under the terms of the amendment a primary election will be held in May, the election in June, and the new officers each elected for a two-year term will take their seats the first Monday in July.

As soon as it was assured that amendment No. 7 was adopted candidates for Mayor bobbed up on every side and by today the woods will be full of them. SEBASTIAN MAY RUN. Chief of Police Sebastian was besieged last night by friends who urged him to announce his candidacy. Sebastian, who disclaims politics or political connection, reserved definite decision and while numerous statements were given out by admirers who took the authority to quote him directed the Chief's decision has not been made.

"If the people really want me at the head of the administration I would feel it my duty to serve them," he said. "But all other statements to the contrary, I say now that I have not made up my mind." "After the result of the election in its relation to Amendment No. 7, and the radical changes it will bring, became known, a committee of citizens called on me and formally presented the matter. No man can give snap judgment on such matters and particularly no man who is in such a position as myself. "I do not announce my candidacy, but if the people want me I shall know it and in that event there will be time for a definite decision."

H. S. McCallum has been mentioned as a possible candidate of the Citizens' Committee to make the race. McCallum said last night that he is out of it. Martin Betkouski smiled and refused to commit himself. SEVEN GO THROUGH. The Socialists succeeded in carrying the first six of their amendments. No one is confidant in its character and gives the city unusual privileges in the acquiring of public utilities. Private owners will regard to the debt limit of the city. No. 2 is a franchise amendment under which the city may acquire property constructed under the franchise after the first five years at an agreed price. Subways and elevated railroads may obtain franchises for forty years, while all others are limited to twenty-one years. No. 3 authorizes the city to limit the money that can be spent on elections, and authorizes it to transport cars and trains over a municipal road should one be constructed in the riverbed. In effect it throws open the riverbed to private corporations by ordinance. No. 4 gives the City of Los Angeles power to do anything else any other city may do and to engage in any business which may be authorized by the electors. Municipal cheese factories and peanut stands may now become a reality. No. 5 exempts the civil service from control by the Mayor or Council and provides that each of the nine Councilmen shall be a committee of one and one-ninth of the city's business, and requires that he keep himself thoroughly posted thereon for purposes of recommendation and report to the Council. No. 6 requires the Council to hold daily sessions, and provides that Councilmen shall receive \$200 per month, the Mayor \$400 per year, the City Attorney \$4000, the Auditor and Assessor \$3000 each per year. No. 7 provides for a new deal in city officers and legislates the entire present administration out of office so that in June a Mayor, Council and every other elective officer must be elected anew.

Even in what is to a certain extent defeat, the Citizens' Committee of One Thousand breathe defiance to the Socialist forces and reiterates that the fight has but just begun. "Not discouraged," ironically remarked W. J. Varlet, chairman of the Citizens' Committee, last night. "We did our best and no one can do more," said Mrs. W. C. Tyler of the Executive Committee. "Let me say that the women are in this fight to stay and defeat is not going to discourage them."

It means a bigger fight later on," said Varlet. Another leader here remarked that some persons who are not so bright as the city fathers will do so now and the political pot will boil shortly. LETHARGY. Contrary to the expectations of the leaders, the vote in Socialist strongholds was exceedingly light, while former enthusiastic members of the Good Government Organization failed to respond to the frantic appeals of the bosses to go to the polls. The rank and file of both parties seemed disgusted with the alliance and neither would trust the other far enough to give it the confidence of a vote.

Lethargy for a different reason was manifested all through the city and in a majority of the precincts not over 10 per cent. of the total vote had been polled at noon. The electors failed to become excited over the proposed amendments and three-quarters of them decided to keep their hands off. The vote of the women was disappointing. In some precincts it was a negligible quantity, while in others, notably throughout the southwest, it was about one-third of the total. Mrs. W. C. Tyler and Miss Susan Rawlings of the women's committee are convinced that a large majority of the

men's vote went for the citizens' amendments. During the early part of the day a vast amount of educational literature was distributed, and the proponents and opponents of the dance hall ordinance were especially active. The night vote in Socialist and Good Government ballistics was taken as a good omen at Citizens' headquarters, in spite of the falling off in the vote anticipated from parts of the city where it was believed the citizens' strength would be most apparent.

Dump.

SPILLS HUTTON'S BUCKET OF DANFORD WHITEWASH.

Judge Murphy Sets Aside Order Reinstating Convicted Forger-Lawyer, Still Under Sentence, on the Ground that He Has No Civil Rights—Disbarred Man Says He Will Brave Contempt and Keep Practicing.

THE STAND taken by the Bar Association, the judges and lawyers generally that a lawyer convicted of a felony and still under sentence should not be reinstated because he has no civil rights was upheld by Judge J. D. Murphy, of Mono county, presiding in Extra Sessions One, yesterday when he set aside the order made by Judge George H. Hutton reinstating William J. Danford, after the latter's disbarment and conviction of forgery. In making his decision Judge Murphy had no precedent in this state to go upon. It was the first case of the kind ever brought to the Superior Court, and the ruling was based upon Section 478 of the Penal Code, which provides that when a man has been convicted of a felony, all of his civil rights are suspended. EXCEEDED HIS POWER. The court stated that he is of the opinion that, under this section, Judge Hutton exercised power in excess of his jurisdiction by absolutely conferring upon Danford civil rights which he had been deprived by reason of conviction of a penal offense, namely, forgery, sentence for which was still effective. The question as to the attorney argued it was whether this court could set aside an order of the court. Judge Hutton had pardoned Danford, not for the criminal act, but as to the court itself and that Danford's reinstatement was within his jurisdiction and was a matter of record. A motion to dismiss the proceedings to set aside Judge Hutton's order on the ground that the accuser, Catherine

Smith, is not a party to it, and on the further ground that she cannot set aside the order unless it is void on its face or upon the ground of fraud, which was not alleged, was denied. DANFORD STUNNED. Danford, who seemed stunned, declared he will continue to practice although he will be in contempt of court if he does so. He also gave notice that he will appeal to the Supreme Court. After being disbarred at the instance of the Bar Association upon positive proof that he had accepted about \$1000 from Catherine Smith, Danford appealed to the Supreme Court, which affirmed the judgement of the lower court. He was arrested in 1910, charged by J. O'Keefe with having borrowed \$1000 on alleged worthless mining stock. O'Keefe insisted before leaving the money that Danford produce a telegram from the First National Bank of Telluride, Colo., recommending the loan and indorsing the character of the stock. Later Danford produced a telegram which was shown to have been forged. He was arrested, tried and convicted of forgery and sentenced by Judge George N. Davis to serve some time in the penitentiary. His sentence will not expire until March 29, 1914. In a statement last night Danford said he regarded the order of Judge Murphy as void and without jurisdiction under Section 1049, Code of Civil Procedure. "I shall continue to represent all clients in court until the final adjudication of this matter," he said.

FIRST AID COMES LATE.

Injured Man Held in Private Home While Police Ambulance Waits to Help—Car Hits Wagon.

Barney Pussell, a dairyman, 28 years old, of No. 923 Safford street, was seriously injured last night when his wagon was struck by Brooklyn-avenue car No. 864 at Brooklyn-avenue and Echandia street. He was taken to the Receiving Hospital.

Contusions of the back and legs and lacerations of the face and body and possible internal injuries were sustained by the victim.

Pussell was driving his wagon north on Echandia street when the car struck it broadside approaching from the East. The driver was hurled to the street and the wagon was demolished. The horse escaped uninjured.

Police are investigating what they say was the unreasonable defiance of the injured man by citizens who succeeded him and after telephoning for the ambulance refused to turn the patient over to the authorities. Finally, an hour later, a second call for the ambulance was sent in. Pussell was all this time without medical treatment. It is said a doctor who had been telephoned for having failed to respond.

In Early Morn.

CONCENTRATION OF ACCIDENTS.

Five Autos Wrecked Within Hour at Same Place.

Fourteen Lives Endangered, None Much Injured.

Peculiar Piling Up of Cars on Slippery Road.

The speed demon was in a decidedly bad temper during the rain early yesterday morning and took advantage of the wet road and possible carelessness of drivers to wreck five motor cars, endangering the lives of fourteen persons—ten men and four women—and causing a property loss of \$8000; all this within one hour at a treacherous turn of Washington boulevard three blocks west of the side of Venice. One car was damaged

One of five cars wrecked at the same place yesterday. This is the machine of F. C. Wells, which tried to go around the heap of smashed ones on the boulevard near Venice and collided with another auto.

EIGHT-HOUR LAW NOT DESIRED, SAYS SUPERINTENDENT.

Legislative Committee Visits the County Hospital to Get First-Hand Information—Head of Institution Tells of Training, Likes and Dislikes of Women.

To get first-hand evidence and the opinions of those who have a right to be the most interested in the thing, the Legislative Committee visited the County Hospital last evening and interviewed nurses relative to the proposed eight-hour law for women of that profession. Superintendent Whitman of the hospital took advantage of the opportunity to present some facts and figures relative to the subject. He declared if the proposition were left to a vote of the nurses, there never would be an eight-hour law for them. Nurses become so engrossed in their work, Dr. Whitman asserted, that it is often necessary to admonish them not to work overtime. They are instructed in prophylaxis—how to prevent disease—and they are enabled to safeguard their own health. "Hospital work and the work of a nurse in general," said Dr. Whitman, "is fundamentally one of being ready for emergencies. Night or day, those suffering and injured must receive attention from doctor and nurse. This often means longer hours for the nurse, who may already have worked the allotted time, but it is absurd to suppose that because she has worked her day the patient must be left without a nurse, and such a condition could and would occur because the available number of nurses would not be sufficient at all times to cover all emergencies. No training school could be expected to keep a lot of extra students waiting around for this sort of thing to happen; ideals which the nursing profession has so long tried to uphold would be degraded, the nurse would be in the same class with the common laborer who runs under the pick when the whistle blows.

"In spite of entrance requirements and such tests of personal fitness as can be made, training schools cannot keep the ranks of the pupil nurses free from disgruntled, inefficient trouble makers. Such as these have uttermost to be avoided by the nurse calling, and long or short hours, they would not be satisfied. "Women working in such departments as commercial labor or trade can legislate for themselves. Nurses cannot be considered as belonging to that element of governed by its restrictions, and they believe that it is unjust for one class of workers to be

ished and three others badly damaged, but curiously none of the occupants was severely injured. Broken glass, splintered pieces of rubber tires, scraps of wood and metal scattered along the highway and dismantled and overturned cars gave striking evidence of the peculiar nature of the accident. The total value of the five cars was about \$8000. The first of the collisions was between a Knox car occupied by Melvin A. Mooser, a dry goods clerk at Ocean Park, and his sister, Miss Carrie Mooser, a school teacher in Venice, and a Kennore car driven by J. Rogers of No. 758 East Twenty-fifth street, and with his sister, Miss Margaret Rogers, as a passenger. The Knox car had been loaned to Mooser by G. J. Schiack, the Pacific Coast representative of an eastern hat manufacturer, now a guest at the Alhambra.

Rogers was on the right hand side of the road on the way into Los Angeles and Mooser, approached from the opposite direction. The two cars were traveling about thirty miles an hour. Another machine was in front of Mooser going in the same direction. Mooser did not see Rogers's machine ahead and is accused of violating a rule of the road by turning to the left of the road to pass the car directly in front. When Rogers's car unexpectedly appeared in front of Mooser the latter, with a burst of speed estimated at fifty miles an hour, tried to cross in front of the Kennore car. The right front wheel of one car struck the right rear wheel of the other and both were torn off. The momentum of the Knox car was so great that it proceeded on three wheels 150 feet up a bank and crashed into a fencepost and tore off the other front wheel. The car, however, did not turn over, and neither Mooser or his sister was thrown out. The shock turned the Kennore car around, and both Rogers and his sister were thrown out. He suffered a contusion of the right knee and a bruise on the chin. Miss Mooser was slightly bruised.

Collision No. 2 came thirty minutes later when F. C. Wells of No. 118 East Ninth street and three other men in a Buick car on the way to the city turned to one side to avoid the wreck and crashed head-on into a Chalmers car occupied by Stewart Geyer, a chauffeur of No. 1818 Cherry street, and H. O. Hobart, a young man of No. 608 Hobart street. The engine was torn from the Buick car and the wheels and other wooden parts demolished. The car turned over, but none of the four occupants was seriously injured. The Chalmers car, it was agreed, was proceeding slowly. The Chalmers car belonged to John H. Avery of No. 3343 Hobart boulevard. He purchased it Saturday.

A Pope-Hartford car, occupied by two men and two women whose names are not known, skidded when the driver tried to turn around the wreck in the road and went into the ditch. One of the women fainted and other occupants sustained slight bruises. A passing machine pulled the car out of the mud and it was recovered to the city.

**Cut open
a Loaf of
Bradford's
CREAM BREAD**

—Then cut open a loaf of
any other bread you wish.

—Compare the two loaves in "looks," in "taste"
and the way they respond to the touch.

—You'll find that **Bradford's** is fine-grain,
and rich and moist, that it responds to the
touch, showing that it is light, and yet firm.

—Bradford's bread has these qualities—that other bread lacks—be-
cause it is made with milk, with fresh yeast we make ourselves, with
the best Dakota Flour, and with pure vegetable shortening.

—A "quality" loaf at every point and
made in the "white enameled" bakery.
Large wrapped loaves, 10c.

SOCIETY AFFAIRS.

Miss Vesta Helen Hill,
Popular daughter of Mrs. Cora V. Hill of San Francisco, whose wedding in
this city where both young people are well known.

IN SPITE of the rush of tea, luncheon and reception engagements appearing as regular as the day and each betrothal adds another link to the long gossip-chain which has followed the matrimony of the last few weeks. Today's news of the betrothal of Miss Vesta Helen Hill, the beautiful daughter of Mrs. Cora V. Hill of San Francisco, who divides her time between this city and the northern one, will bring sorrow to the ranks of the bachelors, who were most attentive to the pretty young visitor last summer.

Nevertheless—it must be related—the wedding will be solemnized April 25 in the Church of the Savior in the north, with William Granville Hughes, Jr., in one of the leading roles. Young Hughes is popular in club and society circles of this city, where he passes much time. His parents are from Louisville and the family is an old and distinguished one. A number of local society maids and matrons, who entertained elaborately for Miss Hill last summer during her visit, will go north for the wedding.

BIRTHDAY—MISCELL.

At the Church of the Angels yesterday afternoon Miss Barbara Burkhalter, youngest daughter of Mrs. Denis Burkhalter of Scharf street, became the bride of Edmund Mitchell, son of John A. Mitchell, the hotel man. The ring used in the ceremony was the one worn by the bride's great-grandmother when she was married over a century ago.

After the service the wedding party returned to the family residence where dinner was served. Mr. and Mrs. Mitchell will spend their honeymoon motoring through Southern California. On their return they will reside at the new home which Mr. Mitchell has built for his bride in the beautiful Angeles Mesa.

TO GIVE TO.

Mrs. Robert Edwin Page, Mrs. John Wightman McAlister and Mrs. Page will preside this afternoon at a tea-party in honor of Mrs. William Thomas Holt, a recent bride, who before her marriage was Miss Elizabeth Rodman from a tour of the world. The hostesses have asked to assist them Mrs. Elizabeth Wright, Mrs. Matthew S. Robertson, Mrs. Herbert M. Bishop, Mrs. Laura Armstrong, Mrs. David S. Barnard, Mrs. George Liverdun Cole, Mrs. George Lafayette Crossway, Mrs. Thomas Jefferson Douglas, Mrs. William James Hawkes, Mrs. Charles H. Hance, Mrs. Isaac Lester Hubbard, Mrs. Robert E. Wing, Mrs. Mary L. Truby, Mrs. Walter Perry Story, Mrs. Mary Koyser, Mrs. Nicholas E. Rice, Mrs. Charles Martin O'Leary, Mrs. William J. Porter, Mrs. Cliff Page, Mrs. Anthony Eugene Haley, Mrs. William S. Cross, Mrs. Charles Hulbert Toll, Mrs. Albert Crutcher, Mrs. Arthur G. Norwin, Mrs. Frank H. Snodden, Mrs. Lewis Clark Carlisle, Mrs. George F. Treacher, Mrs. M. Eleanor Page and Miss De-catur Page.

Party and Supper.

Mrs. F. W. Enderby of the Huntley apartments charmingly entertained recently with a Five Hundred party and supper, commencing at 7 o'clock, her brother, George O. Shumway, former Mayor of Galesburg, Ill., who has come to this city to reside. The decorations were particularly attractive with clever Easter suggestions arranged by the original hostess. There were present Mrs. Irving Smith, A. Mercer, Mrs. L. Cottrell and Mr. Higley, who won the prize, and Mr. and Mrs. George O. Shumway, Irving Smith, L. Cottrell, Mr. and Mrs. William S. Lyon, Mr. and Mrs. Charles S. Faulkner, Mrs. A. Mercer, Mrs. Higley, Mr. and Mrs. R. M. Fruster, Mrs. G. Miller Hays, Mrs. Hazel

Aracela, Miss Grace Abbie Adams, Mrs. Ethel B. Hays, Mrs. A. H. Anderson, G. L. Andrews, Linda S. Tedford, H. D. Weeks.

Wedding Announcements.

Saturday morning at the home of Mr. and Mrs. Ira B. Wilson of 532 East Jefferson street, was celebrated the wedding of their daughter, Miss Gladys A. to Clarence Hughes, a business man of this city. The services were spoken by Rev. G. D. Bromfield of Long Beach in the presence of relatives and friends. A honeymoon trip to San Diego and Old Mexico will be enjoyed before the young people settle in this city.

Eighty-first Birthday.

The eighty-first birthday anniversary of Ward E. Stevens of Kern county, was observed at the home of Mr. and Mrs. Stevens' daughter, Mrs. William H. Abramson of 101 West Eighth street. Mrs. Stevens was entertained with a family feast at the table filled with her husband's Easter lilies and showered with each place a dainty card adorned with the photograph of the guest of honor, who was a pretty feature.

A handsome birthday cake, long and half as wide, with "March 25—1918—Ward E. Stevens' Birthday Greetings" reading on one end to the other and decorated with eighty-one candles, was the delight. Stevens first came to California in 1849 and since has won several first prizes—once runner-up of the Panama Exposition and many times by ex-teams. Mr. Stevens returned to his home for business purposes and later will come to this city where with Mrs. Stevens he will settle.

Charity Ball.

Members of the Los Angeles Chapter of the United Daughters of the Confederacy will give their annual charity ball this evening at the Hotel Hamilton with the following patronesses: Mrs. L. C. Brand, Mrs. Charles H. Edwards, Mrs. Samuel Cary Dunlap, Mrs. A. W. Whiston, A. Gray, Mrs. Charles H. Howell, Mrs. Eugene A. McKinnis, Mrs. W. L. Hollingsworth, Mrs. Grantland Weston, Mrs. L. McKinnis, Mrs. Cora E. McKinnis, Mrs. Harrison Purdie, Mrs. S. Robertson, Mrs. Harry Peterson, Mrs. Walter Perry Story, Mrs. M. Stephens, Mrs. A. B. Smith, Mrs. T. Scherer, Mrs. C. E. Weston, Mrs. William J. Porter, Mrs. Charles Walborn, Mrs. William H. Williams, Mrs. Erasmus W. Williams, Mrs. William H. Williams, Mrs. John H. Williams.

At Santa Barbara.

A pleasing social event of the week was a luncheon given Thursday at the Hotel Hamilton by Mrs. L. C. Brand, in honor of Miss Margaret White's fortieth birthday. As a attractive feature was a large cake surrounded by forty candles, each with a name written on it. The decorations for the party were beautiful, the over-arching of the room being predominating. These guests were: Dr. and Mrs. Thurston, Mrs. A. M. Stewart, Mrs. Edward W. Williams, Mrs. Alice Thompson, Mrs. Mabel Platt, Mrs. John H. Williams, Mrs. Frank J. White, Mrs. Grant.

The Potter Hotel Palm Springs was the scene of several gay parties given by the members of the Los Angeles Chapter of the United Daughters of the Confederacy. In the morning room Mrs. Anne Blumman also entertained guests were Mr. and Mrs. E. H. Jones, Mr. and Mrs. Wood, Mr. and Mrs. Frederick W. Leadbetter, Mr. and Mrs. Edward E. Cartwright, Mr. and Mrs. John Edwards, Mr. and Mrs. M. H. Fetter, Mr. and Mrs. William Park, Mr. and Mrs. William Miller Graham, Mr. and Mrs. Meera Brown, Mr. and Mrs. Fraser, Church and Mr. and Mrs. Jones entertained a small party of friends, the decorations were especially pleasing. The guests were Mr. and Mrs. Wood, Mr. and Mrs. Weatherax, the Misses, Mr. and Mrs. Campbell, Elmer, Mr. and Mrs. Doa, Spoor and Mr. and Mrs. Fernald, Mrs. Brown, Elliott Hayes and Mrs. Fernald.

PUMPS

Good morning; what have you selected
in your spring seed catalogue?

The Mexican major who "guarded" Ma-
no when he was shot has been promoted.

The new Secretary of the Interior was
born in Canada. More of "The Making

is so chilly at the White House? Just
that there is some talk of removing
refrigerators.

No, Hortense, Johnny Dundee, the prize
fighter, is no relation of "The Maid from
Andover," celebrated in the song.

By this time we hope Mrs. Wilson has
completed the job of placing new papers
in the White House bureau drawers.

Trouble ahead for the tariff. A score of
Democratic Congressmen want protection
articles produced by their own people.

Important if true: The egg did actually
only able to develop after the spermatozoon
has entered into it. Do you get the point?

Prospective Democratic office holders are
suffering from Hamlet's infirmity; they don't
know whether they are to be or not to be.

Congress forgot to provide for the salary
of the Secretary of Labor and the department is
now run on "tick." Is that against the
policy of the union?

Vincent Astor desires to know something
about the grain business, Joe Lister
doubtless informing him on the latest
method of raising wheat.

The White House is a lonesome place,
there is nobody to make a neighborly call
on the President and his family and discuss
the affairs of their friends.

Pierpont Morgan has been compelled
to without his daily fat. Mr. Madison
probably is to be able to pay that bill
of a Roman doctor.

Let it be remembered that Mrs. Wood
Wilson is onto her job in Washington.
She has invited the newspaper women of
capital to take tea with her.

Collector Stefansson will hold the Ensign
fast on the point farthest north. But
will find the American colors a few
higher up, planted by Peary.

much danger of any nation building a
through Nicaragua. There are many
for thinking so. One is the price,
it is unnecessary to name the others.

Ever what the Democrats called the
diplomacy" of the Taft administration.
The value of exports to Latin America
is \$128,944,530, as against \$92,506,000
last year. That is going some.

ot of beans sent by aerial post from
to New York was fifty-three tons and
250 miles. The express company

Morewood in New York City

Yesterday at The Times School of Domestic Science

Conducted by
Mrs. Bertha Haffner-Ginger

FOR WOMEN HOMEKEEPERS.

FASCINATING TALK ON A FASCINATING ART.

Open House and Free Lessons
Three Days in the Week, on Monday, Wednesday and Friday, in Afternoon, Second Floor New "Times" Building.

If you want all your preconceived theories of baking smashed to smithereens, come and watch Mrs. Haffner-Ginger make an angel cake.

Does she sift the flour seventy times? She does not.

Does she bake that cake forty or fifty minutes? She does not.

Does she gently set the pan in the oven, and shut the door quick, and tread softly and speak low and fasten the children in the cellar while the cake is rising? She does not. On the contrary, she sifts the flour just three

times and then measures it in a sifter and then sifts it over the eggs and sugar, and folds it in.

She bakes it about fifteen or twenty minutes—and it is at the top of the pan and as light as a cork.

After she has the cake dough all ready to put in the pan to bake she lets it stand a while—so the moisture can work through and distribute itself evenly.

"There's no moisture at all in this cake beside the flavoring extract, except the moisture of the eggs," she explains, "and give it a little time to get moistened through before you put it in the oven."

Then after that cake is once in the oven, the household machinery moves right on just the same as if it were not entertaining an angel unaware.

However, you notice one thing, that never for a minute, while it is in the oven, is that cake out of the cook lady's mind. She is perfectly conscious that it is baking and every once in a while she throws open the oven door and, if she finds it is too hot she leaves it open in a carefully careless manner that makes you hold your breath.

"Why, if that cake was mine 'would be at the bottom of the pan," breathed one anxious soul as she watched operations yesterday with

well-nigh suspended breath.

"It can't," calmly responded the cook lady as she pulled the half-baked cake forward to see what sort of progress it was making. "I know the chemical compound of that cake and it simply cannot fall—not until all those little air bubbles that I beat into it burst—and by that time it will be done—and at the top of the pan," triumphantly. And it was even so—just as the cook lady said.

Supreme Test of Cookery.

Ever since that particular cake confection known as "angel cake" came into fashion several years ago, it has been considered a supreme test of delicate cookery to be able to successfully construct and bake one of these angelic creations. Many a housewife knows to her sorrow that a "mad" angel cake is about the saddest thing in the earth beneath or the heavens above. And when you have before you the task of making a cake light as a cork, white as the driven snow, fluffy as a feather—and not a speck of baking powder in it, you have some job in the culinary art in sight.

And yet, to watch Mrs. Haffner-Ginger build an angel cake it looks like the simplest thing in the world. She puts the materials together as easily and gracefully as an artist lays

on the colors with his brush. She pooh-poohs the idea of sifting the flour seven times seven, and of baking the cake forty or fifty minutes.

Chemical Cooking Conquers.

In the first place, Mrs. Haffner-Ginger doesn't count her eggs—she measures them by the cupful. "Don't you see the reason why?" she asked yesterday as she held up to view a couple of eggs which varied greatly in size. Sometimes it takes but eight whites to fill a cup—again, it requires ten—all according to the size of the egg.

Then, she always uses a shallow, sloping dish to whip the whites in, so that one can take up the whole mass with every stroke and sweep the entire bottom of the dish. The advantage of using a shallow dish is that it admits all the air—and that's what we whip eggs for—to fill them with light.

You see, everything that she does is done exactly in accord with chemical facts and conditions, and that's why she never has a failure and everything always turns out precisely as she says it will.

"You mustn't whip your eggs too stiff, ladies," she cautioned; "there is such a thing as beating them too long and whipping all the moisture out

till your whites are so stiff and dry they break apart," and then she gave a rule that always tells the story and the cook knows just when to stop whipping.

It was noticed that she added the cream of tartar to the whites of eggs instead of sifting it with the flour. Here she threw out another caution: "Have you ever noticed," she asked, "that acid taste in angel cake?" she asked, and a chorus of voices answered "yes."

"Well, it's caused by using too much cream of tartar," said the cook lady. "I use but half a teaspoonful to a cake."

Folding the Flour.

"Now notice how I measure my flour," observed the cook lady. "I sift it just three times before I measure it; then I do not pack it into the cup but just throw it in lightly like this," and she illustrated.

"If you have a suspicion that your oven is too hot and the cake is crust- ing over too soon—throw the door open at once—don't even stop to run if you hear the baby coming thump- ing down the stairs—open the oven door first and do it quick; the baby can wait—it can't fall any farther now it's at the bottom of the stairs anyway—but the cake can't

wait a second without spoiling it."

So you see one must have one's mind strictly on that cake while it's baking.

Native Daughter Takes Cake.

When Mrs. Haffner-Ginger appeared on the platform yesterday she had in her hands a beautiful angel cake. It was really a creation of art—all decorated with wonderful pink roses with pale green leaves, and it was destined to be the prize of the oldest native daughter of California in the audience. All through the lecture and demonstration the prize cake set on the table, the center of admiration, and when the crucial moment came and all the native daughters of the Golden West were requested to rise, there sure was a company of them.

There were at least half a dozen gray heads among them and the younger contingent saw at once that there was no sort of chance for anyone under the half-century mark.

A sweet-faced woman who sat in the front row gave her years as 57 and no one disputed her right to the cake.

And here comes a curious coincidence; the winner, Mrs. J. Frank Burns, was born in a house on the site of the present Phillips Block and her father, J. Frank Carpenter, once owned the site where the Times

Building now stands and owns the Times-Mirror Company.

The announcement of all this was received with the greatest interest and everyone declared that it had gone to exactly the right spot.

Next, the Tourists.

At tomorrow's demonstration the prize will go to the State of California—having the largest number of representatives present, cut and eaten at the demonstration of the winners, the prize cake set on the table, the center of admiration, and when the crucial moment came and all the native daughters of California in the audience. All through the lecture and demonstration the prize cake set on the table, the center of admiration, and when the crucial moment came and all the native daughters of California in the audience.

POSTUM CEREAL CO., Ltd.,
Bottle Creek, Mich.

Enclosed find 2c stamp for trial tin of Instant Postum.

Name _____

Address _____

Grocer's Name _____

When the burden of troubles from coffee drinking becomes too great, and irritable heart, disordered digestion and "fussed-up" nerves are Nature's warning to halt, the natural, easy way back to health and comfort is to stop coffee and use

Instant Postum

This pure food-drink much resembles mild Java in flavor, but is free from the coffee drug, caffeine—the coffee drinker's cause of trouble.

Postum is made of Northern wheat and the juice of Southern sugar-cane.

Instant Postum requires no boiling

A spoonful in a cup of hot water, with sugar and cream to taste, and you have "quick as a wink" a delicious drink.

"There's a Reason" for Postum

Sold by Grocers Everywhere.

GOLD DUST makes hard water soft

By the use of Gold Dust you can at all times have nice, soft rainwater right at your elbow for the asking. Imagine what a help this would be for washing clothes, and for all cleansing purposes!

Just a little Gold Dust added to any water softens it, takes out the mineral substances and brings out the greatest cleansing value.

Gold Dust dissolves dirt and grease, works like lightning, and relieves house work of all its drudgery.

For your poor back's sake, don't try to keep house without Gold Dust.

Get one of the Gold Dust Tins at your grocer's. Gold Dust is a perfectly harmless and lasting form.

"Let the GOLD DUST TINS do your work!"

The Consumer's Dollar

will go a long ways with a wise selection of foods that supply the greatest amount of nutriment with the least tax upon the digestive organs. The consumer's dollar will purchase ninety-two

Shredded Wheat Biscuits

each one of which makes a complete, warm, nourishing meal when eaten with hot milk and a little cream. Contains more real nutriment than meat or eggs, is more easily digested and costs much less.

For breakfast heat the Biscuit in the oven a few moments to restore crispness; then pour hot milk over it, adding a little cream; salt or sweeten to suit the taste. It is deliciously nourishing and wholesome for any meal with stewed prunes, baked apples, sliced bananas, preserved peaches, pineapple or other fruits. At your grocer's.

Made only by The Shredded Wheat Company at Niagara Falls, N.Y.

CROSS SEA AND LAND TALK BY ONE TOUCH

FOR the first time in the history of telegraphy the touch of an operator's finger upon the key in London was answered by a corresponding click at the Postal Telegraph-Cable office in San Francisco at 1:40 o'clock yesterday afternoon, demonstrating the far-reaching effect of an invention recently perfected by John Gott, chief electrician of the Commercial Cable Company, and which was successfully applied last month in New York.

The primary result achieved by Gott's invention is this: The operator who takes the cable message will not have to read a wavy line and translate its ups and downs into the dots and dashes of the Morse code, for he can hear the rattle and click of the machine at his side as it ticks off the dots and dashes of the message from overseas in a voice as familiar as that audible to the land operator when he takes a dispatch from a nearby town.

And by virtue of this the automatic relays in the office will take up the message from across the Atlantic or the Pacific and carry it on around the earth, perhaps, without the assistance of the operator in translating the message given by one machine into the language of the other before it can be sent.

THE GOOD TIDINGS.
Superintendent C. L. Lewis was informed at his office in Los Angeles by the chief operator.

"The Pacific is our land line for handling cable messages," explained Superintendent Lewis last night. "Besides myself the gentlemen who heard the message were J. J. Lynch, superintendent of construction; F. E. Fell, chief clerk; H. J. Thompson, chief operator; and J. H. Dorsey, manager."

Speaking of the achievement Mr. Lewis said: "The difficulty has been that, previous to Gott's invention, cable messages have been read by eye, and land messages by ear. Any effort, therefore, to send messages directly from San Francisco to London would have been as futile as for a man to talk into a phonograph in the hope of making a moving picture."

"The effect which the invention will have in saving time in sending messages from London to the Orient, or to any town on the continent, or vice versa, will be great."

"Furthermore, every man removed from a message's pathway means that

much of a saving in expense. A cable receiver's position has been difficult, as it necessitates an operator's eyes for two purposes—in receiving the message and in translating it into the language of the typewriter. I believe there are few men who can accomplish in both respects that they do not have to read the two things to watch with minute accuracy difficult."

SAYS CITY BROKE FAIR.

Santa Barbara Gas Company Sues to Court to Compel Rate-Improvements.

Suit has been filed in the Santa Barbara District Court by the Santa Barbara Gas and Electric Company against the city of Santa Barbara, members of the City Council and Mayor Rosendo, to prevent enforcement of an ordinance which fixes the rate of a thousand cubic feet at \$1.

The complaint charges that the Council agreed to commission a study of \$1.25 for 1900 cubic feet of gas, but that the city council passed an ordinance which would reduce the rate to \$1.

BACK EAST RECOUNT.

Southern Pacific Accounts for Sales of Tickets and to Old Home.

Dates for the sale of the back East excursion have been announced by General Passenger Agent of the Southern Pacific.

Letter of instruction to agents at road at Tucson, Riverside, Santa Ana, Los Angeles, Pasadena. The ticket will be valid for a period of ninety days from date of issue.

Mayor of Madera Says the Automobile Party Which Resulted in Injury to Occupants Was Caused by Drunkenness.

FRESNO, March 24.—(As the city of Fresno, Cal., is the scene of a serious automobile accident which resulted in the death of a young man and the injury of several others, the city council has passed an ordinance prohibiting the use of automobiles in the city limits.

The ordinance, which was passed by a vote of 5 to 2, provides that no automobile shall be driven in the city limits of Fresno, Cal., unless the driver is a resident of the city and has a license to drive the same.

The ordinance also provides that no automobile shall be driven in the city limits of Fresno, Cal., unless the driver is a resident of the city and has a license to drive the same.

The ordinance also provides that no automobile shall be driven in the city limits of Fresno, Cal., unless the driver is a resident of the city and has a license to drive the same.

The ordinance also provides that no automobile shall be driven in the city limits of Fresno, Cal., unless the driver is a resident of the city and has a license to drive the same.

proposed by the Chief of Police. It is intended to prevent motion picture concerns from using the papers and the streets to secure mob scenes, and to put a stop to other people inserting such advertisements, "just to see a crowd gather," or for other motives.

The Chief said yesterday that this week he will take the matter up with the City Attorney. If such an ordinance can be legally enacted, the Chief said he will go before the Legislative Committee of the City Council and personally advocate its passage.

The proposed action of the Chief is the result of an alleged declared "fake" advertisement that appeared in several of Monday morning's papers. It was to the effect that a moving picture company wanted several hundred men and women, asking them to see the manager at Third and Flower streets.

When the crowd began to gather the police were notified, and an investigation made. Operators for the

Ocean-to-Ocean Motion Picture Company were found at Third and Flower streets. They denied that they had inserted the advertisements, or were in any way connected with the gathering of the men and women. The operators said that prior to the gathering of the crowd, they had taken a street scene, and were simply watching the gathering of the crowd when the police arrived.

Similar advertisements have been inserted in local papers within the last few weeks. One was a legitimate proposition, another was used to collect a crowd in the hope of turning it into a demonstration to assist a labor union in winning a rapidly-waning strike, and the others were inserted by the police as "hoaxes."

EAT, DRINK, HEAR, SEE.

Home Products Banquet to Be Marked by Presentation of Thous- and Souvenirs.

The joint committee of the Los Angeles Ad and Rotary clubs, directing the home products banquet to be given next Saturday evening at the Richelleu, was notified yesterday afternoon that the City Council and Chamber of Commerce of Long Beach will send the Long Beach Municipal Band to the banquet to serenade the 1000 diners.

In addition to this band music will be furnished by a twenty-piece orchestra and there will be songs by a local quartette and other entertainment. Fifteen thousand souvenirs have already been received by the Banquet Committee. These range from handsome books to samples of food products. The souvenir menu is donated by Pease's and is a large, handomely-engraved folding card. The banquet hall doors will open

at 8 o'clock and for nearly an hour the ticket-holders will have opportunity to witness the display of wares exhibited by manufacturers. The souvenirs will be distributed just before the "spread" of home-made viands and vintages.

IN FINE NEW QUARTERS.

Owl Drug Company Removes Original Los Angeles Store to Third and Spring Streets.

In response to "the call of the corner," the Owl Drug Company yesterday transferred the business of Store No. 4 from its old location on Spring street, between Third and Fourth, where it has been for many years, to the corner of Third and Spring. The new establishment has been equipped at great expense with all the newest labor-saving appliances in every department, placing special emphasis on the prescription department which is the pride of the managers. A ladies' rest-room with

a maid in attendance, free telephone service and other conveniences for ladies is one of its chief appointments. A handsome soda fountain constructed of illuminated onyx, has been installed and fills one entire side of the store. The company has secured the Volmer-Jansen corner at Seventh and Hill streets and will begin the work of remodeling it immediately after April 1 for the accommodation of Store No. 5.

BIG ADOO ABOUT LITTLE?

Woman Sues Veterinarian for Alleged Malpractice Because Her Terrier Dog Died.

Expert medical opinions were given as to the reasons for the death of a handsome Boston terrier belonging to Mrs. Maud Blinn. Suit for alleged malpractice was brought against Dr. W. C. Stevens, a veterinarian, on San Pedro street. The plaintiff asked \$250 damages. She asserted that an operation was

performed on her pet contrary to her orders. The dog was brought home, dying a few hours later. Harry Blinn, son of the plaintiff, swore that the defendant injured the dog at the house before she was taken to the canine hospital, Stevens, on the contrary, said everything possible was done for the terrier. The case was taken under advisement.

READY TO TRY DAWDOW.

Dist. Atty. Fredericks, who returned yesterday from a short vacation, declared the Darrow trial will begin the 31st inst., unless the defense asks for a continuance. The specification of the case is largely in the hands of Asst. Dist. Atty. Ford, who has issued subpoenas for witnesses. As the ground has been thoroughly covered twice there is little need for additional preparation. No judge has been assigned as yet.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES

LOVED CITIZEN PASSES AWAY.

John W. Barton, Noted for Philanthropy, Dies.

Quarter of Century a Leading Business Man.

Horse Thief Captured After Spirited Chase.

San Bernardino, March 24.—

John W. Barton, one of San Bernardino's best known citizens, passed away last night after a period of declining health extending over the past three years. His age was 55 years.

His death, while perhaps unexpected to the people of this city, in which he has had so prominent a part for the past quarter of a century.

His decline dated from the death of his only son, Paul Barton, four years ago. The loss weighed heavily upon him and he has gradually failed since that moment until his passing Saturday.

Mr. and Mrs. Barton, as a memorial to their deceased son, gave the present site of the Young Men's Christian Association building, and the fact is commemorated in a bronze tablet set in the great fireplace in the main lobby of the building.

It had been the ambition of Mr. Barton to live until the new association building was completed, and in this he had his wish gratified. Lying on his bed of pain he watched the crowds come and go for the dedication a few weeks ago, from his home across the street. Several weeks ago he was presented with membership card No. 1 by the directors of the association, the card being made of solid silver and suitably engraved.

Mr. Barton for twenty-five years was one of the leading business men of the city, being of the firm of Barton & Catlick, but retired eighteen months ago because of failing health. He was prominent in Masonic circles, was building superintendent for the city's splendid Masonic Temple, was superintendent and one of the principal movers in the establishment of Mount View Cemetery in which he will be laid to rest, and was prominent in many other civic and public movements for the betterment of the city.

The deceased was known all over Southern California and was most highly respected. He leaves a wife and other relatives, two sisters residing in and about San Francisco.

The funeral service will probably be held Wednesday afternoon at the Y.M.C.A. building and under the auspices of the Knights Templar.

STOLE A HORSE.

But McCann, a fine horse and mule from the Fontana ranch at Decies some time Saturday night and made a start for Nevada, but was intercepted at Victorville by Deputy Sheriff Dolch and is now in the County Jail. McCann was formerly an employee on the Fontana ranch, but was discharged a month ago. He was seen passing Coy Dell in the Cajon by a man who recognized the horse, the Sheriff's office being notified. Deputy Sheriff Ward gave chase by automobile and the officers at Victorville captured the horse, which was being driven by McCann. It has been learned, however, that the horse was stolen from the Fontana ranch, and that McCann is a horse thief.

McCann, it has been learned, has been in similar trouble in Kansas and Iowa for horse stealing. San McKelvey, an employee of the Hanf ranch, in the Cajon, yesterday morning awoke to find a burglar in his room and girding the pockets of his trousers. McCelvey at once proceeded to beat the burglar up in fine style and then threw him out of the window, the beating being one that the intruder will long remember. He made his escape and could not be located when Sheriff Ralph arrived on the scene.

GENEROUS RAIN.

Another generous rain fell in this vicinity this morning, bringing long welcomed generally by the ranchers. The storm of the last two days has added a foot and a half of snow on the level in the San Bernardino Mountains. This condition is pleasing, as it more than ever insures a good summer water supply. The snow this morning has been heavier than for several years past.

MUCH FRUIT UNDAAGED.

Shipments from Ontario Prove Beyond Doubt that Frost Did Not Make a Clean Sweep.

ONTARIO, March 24.—That a large portion of Ontario's orange crop was undamaged by the frost is being amply demonstrated by the fruit shipments which are going East daily from this city.

One concern alone, the San Antonio Orchard Company, organized this season and occupying a new packing house at San Antonio avenue and the Salt Lake tracks, has been shipping the golden fruit East at the rate of a carload a day.

Saturday this company shipped three cars, one to Montreal, one to Winnipeg and one to New Orleans. Two of the three cars were sold for spot cash right in Ontario, before shipping.

The fruit is sound and juicy and is

WOMAN DROWNED.

SAN DIEGO (Cal.) March 24.—(By A. P. Night Wire.) In stepping from a fishing launch to a rowboat today Estelle Arcolet, the 18-year-old wife of a fisherman, fell into the bay. She did not come to the surface. Her husband was holding their infant when the accident occurred. Fishermen dived for the body but in vain.

BOY DROWNED.

FULLERTON, March 24.—Mr. and Mrs. Dean Hanson of Anaheim were visiting yesterday afternoon at the home of Mrs. Hanson's parents, Mr. and Mrs. John Lemke of Placencia. While the little Hanson boy, aged 3 years, was playing in the yard he fell in the estuary and was drowned before he could be rescued. The funeral will be held tomorrow afternoon at Anaheim and the body will be interred in that city.

ELSNORE.

ELSNORE, March 24.—Elsnore is sky gaining, watching for the promised appearance of Aviator W. L. Bonnie, in his Bepherdson monoplane, accompanied by Miss Margaret Stahl. Aviator Bonney is expected to start from Cudahy City and is booked to arrive in Elsnore Tuesday morning. W. L. Durkin of the Superior Land and Water Company expects to race the air man around Lake Elsnore, Durkin in his automobile, and Bonney in his airplane.

CONFESION STORY DENIED.

Belgian Convicted of Murder to Be Sentenced.

Oakland Religious Worker Claims Riverside Bride.

Opium Fiend Escapes, but Is Recaptured by Officers.

RIVERSIDE, March 24.—Attorneys Winder and North, who defended Frank Beauwaearts, convicted of the murder of two Portland women in the Chuckwalla Mountains in this county, deny the rumor that the prisoner has confessed. The Belgian was brought from San Quentin today for the purpose of receiving a second sentence, a stay of execution having been granted when the case was before the Supreme Court. The latter tribunal affirmed the lower court and Beauwaearts will hang.

LEADER CLAIMS BRIDE.

Thomas S. Caldwell, boys' secretary of the Oakland Y.M.C.A., but who was pushed from the rig by his companion in this city, and Miss Alice May Wilson, were united in marriage this afternoon at the home of the bride's mother, Mrs. B. Wilson of No. 294 Lime street. The ceremony was performed by Dr. W. A. Hunter of Calvary Presbyterian Church, in the presence of forty of the immediate relatives of the bride and groom. One hundred and twenty-five guests were present at the reception, held between the hours of 4 and 6, the company including several out-of-town guests. Mr. and Mrs. Caldwell left this evening to make their home in Oakland.

McFarland, alleged opium fiend, effected his escape from the new City Jail last night, but was recaptured by Deputy Chief Stocking and Officer Haas not a great while after the prisoner took French leave. McFarland climbed to the top of the cage in which he was confined, and by removing a piece of joist, was able to open a hole through an opening of about eight inches. He then climbed through the transom over the rear door of the jail and walked out into the night. The officers, including several out-of-town guests, were on the alert and on working their way back to the city met the fugitive face to face. KNIGHTS TEMPLARS ASSEMBLED.

Joint Easter services were observed in this city yesterday afternoon by the Sir Knights of the Knights Templar Commanderies from Riverside, Redlands and San Bernardino. The attendance was the largest in the history of the annual celebration. The address was delivered by Sir Knight W. C. Clatworthy of Riverside Commandery, while the ritual service was in charge of Prelate P. A. Gunzous. A reception was tendered the visiting Knights at the Masonic Temple, following the services, which were held at the First Baptist Church.

The evening song service at the Glenwood Mission Inn, a regular Sunel day feature looked forward to with pleasurable anticipation by the guests. The service was made notable by the presence of Dr. Henry Van Dyke and Mrs. Carl Jacobs Bond. Mrs. Bond was heard in a number of her own compositions, among them, "A Perfect Day," which she wrote following her first visit to Mt. Rubidoux. Dr. Van Dyke spoke briefly, preceding his address at Calvary Presbyterian Church on the subject of "Citizenship."

DEGENERATE SENTENCED.

Santa Ana Man Who Debauched His Daughter Is Given Quarter of a Century to Repent.

SANTA ANA, March 24.—Walter Luther was today sentenced to twenty-five years in San Quentin. Sentence was passed immediately after Luther, a laborer of Wintersburg, had pleaded guilty to debauching his stepdaughter, Cora Kelley, aged 13 years. "In a case of this kind," said Judge West, "the law provides that there might be for life. This girl was under your protection and care. It was for just such cases as this that the Legislature has fixed the law so that the penalty may be severe. Had you gone on the stand and perjured yourself in denying the accusation, and then been convicted, I should have made the sentence thirty years. With your plea of guilty I fix the sentence at twenty-five years."

Luther went throughout the proceedings, and almost collapsed. He is well known in Santa Ana, where he has a family of five children. He was brought to the attention of the authorities a short time ago after the girl gave birth to a baby.

NEW BRIEFS.

When Deputy Sheriff Law and Dean went to El Modena today to arrest Jose Rayanosa for frightening the 13-year-old daughter of Mrs. J. Cosgrove, Librarian Gusman attempted to keep the officers from taking Rayanosa into custody. Gusman struck Dean on the mouth and Dean replied with a series of blows that put the Mexican down and out for a time. Rayanosa and Gusman were brought to jail here.

Indictment of \$1137 was given Attorney T. M. McNamara of Imperial county against D. W. Brackenridge of this county. Suit was for legal services.

Marriage license: Milton S. Cor, 23, and Nellie Hargrave, 27, both of Los Angeles; John K. Dixon, 24, Denver, and Ruby M. Smith, 25, St. Joseph, Mo.; Jack L. Earley, 24, Los Angeles, and Faye Bower, 24, Oklahoma City; Benjamin P. Atkinson, 29, and Maud E. Berryman, 27, both of Los Angeles; Lionel W. Riley, 22, and Gladys Robinson, 20, both of Los Angeles; Alexander Roberts, 47, and Anna Sulzer, 36, both of Los Angeles; Robert W. Davis, 23, and Anna Krasnianska, 19, both of Los Angeles; Albert Natus, 31, of Damascus, and Esther Salazar, 19, of Santa Barbara.

FULLERTON BRIEFS.

FULLERTON, March 24.—The Anaheim-based Oil Company has made the following statement to the water company, showing the amount of oil produced during the month of February to have been 75,858 barrels. The company shipped 53,141 barrels and the royalty oil delivered to the water company was 11,614 barrels.

Conrad Wagner, aged 78, and a well-known resident of Fullerton for twenty-five years, died today at the Fullerton Hospital after an illness of several months. The funeral will be held Monday afternoon at 1:30, Rev. Jackson of the Methodist Church officiating.

The Stormy Petrel.

[Kansas City Star:] There are few persons who have crossed an ocean that have not observed the stormy petrel skimming along the surface of the water. They fit past the vessel like swallows, taking their scanty portion of food from the waves. Habitual in black and making their appearance generally in larger numbers just previous to, or during, a storm, they have long been regarded by the superstitious not only as foreboding messengers, but as agents in some way responsible for bad weather.

Nobody can tell where they come from or where they breed. Sailors assert they hatch the egg under the wing and rear the young on pieces of foam. That mysterious origin has given rise to an opinion prevalent among mariners that they are in some way connected with the supernatural agencies of fate.

They are variously known as stormy petrels, white birds, the devil's birds and Mother Carey's chickens. Their sudden appearance often makes the stoutest-hearted seaman flinch.

Between Women's Health or Suffering

The main reason why so many women suffer greatly at times is because of a run-down condition. Debility, poor circulation show in headaches, languor, nervousness and worry.

BEECHAM'S PILLS

(The Largest Sale of Any Medicine in the World)

are the safest, surest, most convenient and most economical remedy. They clear the system of poisons, purify the blood, relieve suffering and ensure such good health and strength that all the bodily organs work naturally and properly. In actions, feelings and looks, thousands of women have proved that Beecham's Pills

Make All The Difference

CORONA BRIEFS.

CORONA, March 24.—The Riverside County Bankers' Association was entertained by local bankers at the Country Club Saturday evening. There were members present from practically all the cities in the county and the banquet tendered in their honor was one of the swell functions of the year. Over forty were present.

Frank Sema, a foreigner, dropped dead Saturday evening while playing pool in the pool hall at the corner of Fifth and Main streets. Coroner Dickson was notified and came down Sunday morning and after hearing the facts from the marshal and eye witnesses deemed it unnecessary to hold an inquest. The cause of death being cerebral apoplexy. Sema was buried Monday morning.

On Broadway at 548-550

Announce the opening of their new store, Tuesday evening, March 25th, 1913, seven to eleven o'clock.

This message is of personal importance to thousands of men and young men in Los Angeles.

Each section of this great, new store is a bright spot in the attractive pattern of the whole, foretelling the coming of the new season.

The lines in every department are new and extensive, gathered from the markets of both Europe and America to make this Los Angeles' greatest store for men and young men.

We extend a cordial invitation to men and young men of Los Angeles and near-by cities to attend this gala week of style festivities.

Benjamin Clothes

Stetson Hats

Shirts, Neckwear and Gloves from the markets of England, France, Japan, Ireland and America.

Store open evenings this week, seven to eleven o'clock, for your inspection.

The "A. B." Gas Ranges

The Great Sanitary Line

The range shown above is made specially for small kitchens, it only takes 40-inch space. Has four top burners and separate simmer burner.

Price \$27.00. \$1.00 down and 80 cents a week.

Mackie-Foley Co.

723-725 So. Hill St.

Home Wanted by a Baby!

By Clare Victor Duggan Mr. T

GOLF TOURNEY ON FOR TODAY.

Annandale Club to Be Scene of Big Event.

Qualifying Round to Begin This Morning.

May Play Match With Los Angeles This Week.

BY ALMA WHITAKER.

The invitation golf tournament at the Annandale Country Club opens this morning at 11 a.m. with an eight-hole qualifying round. The tournament will be devoted to the team match against the Redlands Country Club and the first round matches will start tomorrow, Wednesday morning, at 9 a.m.

A date will also be set for the post-match match against the Los Angeles team, which should have taken place last Saturday. It is hoped that this can be played at this week.

In any case, this is Annandale's week and all good golfers, technically and socially, will be there for the best part of every day between now and Saturday. There are handsome prizes for each night, as well as for summer play and for the qualifying round.

So poor James Parker, Equine, was defeated at San Gabriel by C. M. H. Tabor, the extreme player. Great was the fall thereof. Alan poor Jim. He was spent every minute of the time spent in starting, and when that Mr. Tabor could never do it a second time, never, never. Reckless and reckless were in fearful jeopardy, but his friends positively refused to rob him.

In the meantime Mr. Tabor is quite satisfied. He has felt this great third night victory coming ever since he did the feat in that glorious display three or four weeks ago.

Woodstock is receiving much attention from the Los Angeles press. He and Lee Turner are the main attraction in the thirty-six hole championship match at San Gabriel. For it is generally known that for an extreme-hole match Mr. Turner might stand a good chance of winning, but that the physical strain of thirty-six holes in one day would almost surely prove his defeat. Therefore, Woodstock's place to play at eighteen holes as two separate days is considered and regarded. Nice boy!

The last eighteen will probably be played on Thursday, next, and the main on Saturday.

There are enthusiastic rumors to the effect that the Los Angeles Country Club intends giving the whole of its course in the near future in order that those charming, heavily lined faces may be seen in the future. An excellent system of irrigation is now being devised and the new clubhouse will not necessarily put out any of the old clubhouse.

But, oh, the horrible expense! No wonder they call the Los Angeles the millionaire club. They think nothing of spending a casual five and six hundred dollars on a new green alone.

There is no earthly reason why we should not have things right, in the hands of the sort of remark one when it seems to be a surprise enough to question an item of luxury.

Too bad that the new Duarte Country Club is in existence. The owner of the property has done and the latter members have other ideas which don't exactly coincide and the pleasant surprise is falling to materialize.

There is such hope at Duarte and Monterey for a country club—all those jolly tennis and hockey people come from that district and the plans just made, with potential Norman Macbeth, and Irving Armstrongs.

The plans for the golf course were to be very stirring and such athletic hopes as the three Misses Scott, the Misses Handyside, etc., had promised themselves to become real golfers in no time.

Delusions difficult will be overcome and the plans be proceeded with.

MANY ENTRIES FOR WRESTLING BOUTS.

With fifteen entrants, a wrestling tourney is to start at the U.S.A. on Monday evening on the elimination basis. A handsome trophy will be offered the winner of the finale. Several first-class wrestlers of various weights have entered and much class promises to be in evidence.

The entries include: W. E. Chisholm, welterweight; Louis Ardoun, heavyweight; Albert Gladys, middleweight; Roy King, featherweight; John Turner, featherweight; George Brown, heavyweight; W. H. Kempf, lightweight; Walter Town, welterweight; J. Palmer, middleweight; F. Alameda, lightweight; George Patrick, welterweight; S. D. Simon, heavyweight.

ANOTHER DRAW. BRIDGE. March 24.—(By Cable and A. P.) Sam McVey and Sam Murray, twenty rounds in a row, won today. In their last fight McVey knocked McVey out.

Clara Butt.

(Continued from First Page.)

rumpling through her private car, "Magnet," in the Santa Fe yards they were the first to find which had a very jolly time under the supervision of a lady for the two lucky kids and of the governors for a lovely girl of youthful years.

Clara Butt has solved the Mary Garden problem in a new and delightful fashion. Her heart is large enough to embrace art, husband and baby, and being attached to all of them, she takes them along from one continent to another.

Kenneth Humphord, her husband, is an eminent baritone, he sings with her in concert. The children are absolutely necessary to her proper state of mind and they travel, too, but not to delay their education, their tutor comes along.

This is the real solution to the puzzle of art versus matrimony.

Mrs. Butt is tall, but graceful and attractive, possessed of a clear speaking voice of beautiful tonality, well suggesting the extraordinary contralto quality of her singing, which has made her famous not only in London, but New York, Chicago, and wherever she has appeared.

Mr. and Mrs. Humphord, on board of the "Magnet," leave the charm of the cultured Englishman, touring the world on a professional engagement, delighted with the Grand Canyon, in love with the West of the Middle West, and thriving for more California. Today, in matinee, they will appear in their professional capacity at the Auditorium.

Louis Berger, often called the young American Yare, will be heard for the first time here this evening in his vocal recital at the Bismarck Hall.

Big Surprise.

McGOORTY LOSES TO BOB MOHA.

Big Dutchman Does Not Give Eddie a Rest.

Boning Does Not Avail Against a Very Determined Attack—Winner Does Not Attempt Any Cleverness, but Goes to Continually Mac Had Little Time for Science.

BY FEDERAL (TUESDAY) LINE TO THE TIMES.

MILWAUKEE (WIS.) March 24.—(Special Dispatch.) Bob Moha established himself as one of the world's leading middleweights by defeating Eddie McGorty, the Oklahoma "whale" in a fierce battle before the South Side A. C. here tonight. Moha thus dished up one of the big surprises of the year pugilistically, for McGorty was figured to have all the edge and power of a study line in a bout scheduled for only ten rounds.

Moha fought even better than when he whipped Johnny Thompson here recently. He kept after McGorty continually, swinging both hands all the while and never giving the clever boy from Oklahoma a chance to get himself.

He simply refused to box with McGorty, making a slugging match out of it by his aggressiveness. Much as McGorty hated the style of going, he could not keep away from Robert and had to battle him at his own game.

McGorty's best blow was his famous left hook. He landed with it often, but McGorty was not even enough behind it to slow up the Milwaukee Dutchman. He only tried his right a few times and did not hurt Bob with it.

It is peculiar that McGorty uses his right so little because he has been known to hit and hit hard with it. He is now looking with the left all the time that he appears to forget all about the right.

LIGHT'S BALL BOYS TAKE GIANTS' NUMBER.

The heavy slugging of Capt. Harry Luchs Co. in "Maidens" was too much for the Henry & Cornett Giants at the Armory last night and the Southern California indoor baseball champions took the final match of the series by an 11 to 4 score.

Luchs worked in the box for the girls until the eighth inning when he slowed down. The series of blunders which followed, put five counts over in rapid order. Elmer was hit and the bat for the winners and caught an excellent game.

Cowan pitched for the Giants, with Hestley catching. Cowan was not hit and in the ninth inning was touched up for five runs.

BILL DEVEREAUX TO MANAGE VALLEJO.

BY A. P. NIGHT WIRE TO THE TIMES. SAN FRANCISCO, March 24.—William Devereaux, known to Pacific Coast baseball fans as "Blick" or "Red" Devereaux, will manage the Vallejo team of the new class D league, according to an announcement made here today by the decision of Cal. League of the San Francisco Coast League team.

Application for class C rating for the new league has been forwarded to the National Association by President Allen M. Baum.

OWENSMOUTH ROAD RACE.

Entries Close With Odd Number of Motors.

Simplex to Vie With Fiat for First Honors.

World Record May Result from Clash of Cars.

BY A. P. NIGHT WIRE TO THE TIMES.

Three-quarters of the Morocco mail has been requested for "invites."

Alan Campbell, author of "The Dust of Egypt," the clever satire on renaissance which is now causing crowded audiences to howl with laughter every performance of the piece at the Morocco theater, is due to arrive in Los Angeles tomorrow morning.

Lee Arthur, the author of "The Fox," has just completed a new sketch of the underworld called, "Burglary a La Carte," in which he says he has "out-criminated" Paul Armstrong. The sketch is to be produced by the United Booking Office.

Aaron Hoffman has been engaged by John W. Condit to write musical comedies for the Sullivan and Condit circuit. These are to be produced by Julian Mitchell. The first from the Hoffman pen will be "The End of the World," which will shortly be seen at the Empress with Nat Carr, the well-known Hebrew comedian, as the star.

Sybil Brennan, the Orpheum top-line star, says the split skirt has come to stay. "Women have toddled about in hobble too long, and now that their feet have found the way out, they are not going to have the door shut in their face, as it were."

Bill Cressy isn't joking about that apartment house, after all. He commissioned J. W. Roberts, architect, yesterday, to draw the plans for a 168,000 structure on a piece of ground 1 1/2 feet from the ocean front. He has already leased the place to W. D. Murray for 35 years. Cressy believes in having income property hereabouts.

BROOKLYN GETS ONE. AUGUSTA (Ga.) March 24.—(Special Dispatch to The Times by Federal Wire.) Jimmie, after the fifth inning of the much-postponed game between the Superbas and Ty Cobb's all-Georgians, which was played this afternoon, the National League had no difficulty in winning out. The score: Brooklyn, 7; All-Georgians, 1.

DELICIOUS

Frank Siefert, who makes his reappearance in road racing, will be out with the Mercer. Siefert has been practically out of the game since he made the great show in the Santa Monica road race, when he drove the Stoddard-Dayton into second place. Siefert has the nerve and his car is tuned to wonderful speed. He has a good chance to win.

The Maxwell, which Joerimann will drive, is the same car that won the last great at Santa Monica two years ago. Since that time Joerimann has been out of racing and his return adds another good driver in a meet which already has called some of the world's best men.

The Zest, with James A. Granish at the wheel, is another question mark. The speed of this car has never been ascertained. It was not started in the Imperial Valley road race, but is ready now for a fast start on one of the speediest courses on which a road race was ever planned.

NEW SCHEME.

TENNIS TOURNEY IS IN PROSPECT.

HOTEL OWNERS DECIDE TO GET BUSY AT ONCE.

Solid Gold Cup to Be Offered the Winner of the Principal Event. Plan is to Hold District Tourneys and the Winners Are to Contest.

At a meeting of representatives of the prominent tourist hotels from Del Monte to Coronado to be held at the Hotel Maryland, Pasadena, Thursday, April 4, arrangements will be completed for the largest tennis tournament ever held on the Pacific Coast.

The managers of the various big tourist hotels have been asked to join in a movement to offer the most costly trophy in the history of tennis in America. It is planned to give a total of six cups, the principal one of which will cost in excess of \$500 and will be of solid gold. The other cups are to be on a scale to compare with this one grand prize.

It is planned to hold district tournaments at each of the hotels in the present and from the winners of these tournaments select teams to represent the hotel in the big cup events. It is expected that the finals will take between one week and ten days to play off.

In addition to the Tourist trophy, contests which will have three events, men's singles, men's doubles and mixed doubles, there will be a "recreation" affair in which both resident players of the State and visitors will compete. The large city hotels of Los Angeles have agreed to donate a cup to the tournament and it is expected that the total cost of the trophies will exceed \$1000.

DATE SETTLED FOR WOLGAST-MURPHY.

(BY A. P. NIGHT WIRE TO THE TIMES.)

SAN FRANCISCO, March 24.—An announcement, published here today says that Promoter Coffroth has decided upon April 26 as the date of the second Wolgast-Murphy fight, a time for which already have been signed. The first fight a few weeks ago ended in a draw.

Coffroth had been considering April 26, but decided upon the earlier date. The fight will be scheduled for 2 p.m.

PICATO KNOCKED OUT BY SUMMERS.

(BY CABLE AND A. P. TO THE TIMES.) SYDNEY (N. S. W.) March 24.—Johnny Summers of England knocked

out Frank Picato of Los Angeles here today in the nineteenth round of a scheduled twenty-round bout. Summers was at all times the clearer of the two and avoided many dangerous blows. The knockout in the nineteenth followed a heavy knockdown that felled Picato.

Picato showed plenty of pluck and willingness to take punishment. His aggressiveness often carried the Englishman to the ropes, but it was in the tight places that Summers's superior ring generalship came to his aid.

For his pluck and grit the crowd cheered Picato repeatedly, and it was ready there in talk of another match. Summers was a favorite in the betting, on the strength of his record.

Schimpf and Garbutt Meet in Their First Skirmish.

GARBUTT THINKS:

We will settle this quarrel with honors even.
William Schimpf is just. We will demand our rights, but will not be hotheaded.
Looks to me like peace on terms that will satisfy both parties.
The future of automobile racing in the East and West looks brighter.

WHAT SCHIMPF SAYS:

There is no reason why we cannot come to terms.
An open break between the W.A.A. and the A.A.A. would work a great hardship on the drivers. I'm for the man at the wheel every time.
Frank Garbutt is fair. We can arbitrate. There will be peace, not war.

A conference of the powers.

Frank Garbutt (left), president of the W.A.A., and William Schimpf, chairman of the A.A.A. contest board, in consultation yesterday at the Automobile Club. Upon the result of their deliberations depends whether peace or war will prevail in automobile racing.

Near the Post.
CAMPI SEEMS
IN FINE SHAPE.

In Better Condition Than for Last Fight.

Shows He Is Very Speedy and Can Hit Hard.

Burns Bores Six Rounds and Shows Up Well.

BY DE WITT VAN COURT.

While Campi boxed three rounds with Young Marino, Young Gus Ruhl and Kid Carter yesterday afternoon, at Jack Doyle's training quarters, Middle in 19 per cent better than when he was training for Kid Williams, and is as confident of winning from Frankie as he ever was in the four-round game in Frisco.

He looks much stronger and has developed a jet around his shoulders and arms. He is not worrying as he did while training for Kid Williams.

His best workout was with Kid Carter, the young lightweight that Scotty Monteth brought out to work with Johnny Dundee, who is matched to beat Champion Johnny Kilbane.

Campi is a good lightweight and knows the game, but Eddie had it on him from all angles.

It is faster than ever in his life, hitting harder and is better today than when he entered the ring with Kid Williams.

He is not worried. When Tim McGrath was told that Tommy Walsh had \$10,000 to bet on Frankie Burns, which is the best money for the weight, he said: "Why should I worry about the betting when I have Mr. Granger, the millionaire oil man, to back Eddie to the limit. Mr. Granger thinks that Eddie will win and will bet his money accordingly. But he will only bet at the prevailing odds, and that should make Burns the favorite, according to his reputation."

Eddie also boxed three rounds with Young Marino, a very fast brawler, and three rounds with Young Gus Ruhl, who claims to be a brother of Gus, the former heavy weight, who fought Jim Jeffries twice.

McGrath has Jack Kelly to train Campi. Kelly is an old-timer at the game and knows it from A to Z. Kelly is also a scout for McGrath in the baseball game, and has landed many good ball players for the Fort land team.

Tim said he is not worried this time about Eddie, knowing the twenty-round route, and that the boy is more confident in every way. He is also hitting harder and faster than ever in his life and if he loses there will be no excuse to offer.

Small also has his brother, Knock-out Cammi, as a sparring partner to work him, and there is nothing left undone to get the little "Prize" champion in good condition. McGrath is right on the job every minute and is figuring on landing the champion in the heavyweight class.

This bout between Campi and Frankie Burns promises to be the fastest heavyweight bout ever seen at the Vernon arena.

of the country, and we will have a great chance to see how our native son of the Golden West stacks up against the best in the East.

Frankie Burns boxed three rounds with Young Marino and three rounds with Mickey Sullivan. Burns showed up well with both boys, and made a hit with the fans present.

Tommy Walsh matched Joe Mandot with Pat Brown for a date the last part of April, in this place in Frisco. Mandot is to receive \$10,000 and three round-trip tickets for his trouble. It is to be a twelve-round go.

That great little featherweight champion, Johnny Kilbane, is again with us and has taken up his home at Venice. Johnny can be seen daily trundling his new baby up and down the cement walk between Venice and Ocean Beach. He is never prouder than when he is with his father and his wife. He says he feels as good today as when he met and defeated Joe Rivers several months ago.

This little champion is a credit to the game and we are always glad to have him with us. He will take a rest for several weeks before starting training for his bout with Johnny Dundee.

Jimmy Dunn, his manager, is to take Johnny out horseback riding every day for a change before he starts training.

STANFORD GOSSIP.

(Special Correspondence of The Times.)
STANFORD UNIVERSITY, March 22.—The University of California basketball team defeated the Stanford quintet of Stanford here last night 24 to 18, in the second game of the intercollegiate series.

John Elliott, president of the Pacific Athletic Association of the A.A.U., has been engaged to referee the invitation high school basketball game to be held here April 12. Entries for the meet are coming in fast from all parts of the State.

C. F. Williamson of the Barbarians has given a trophy to be competed for by interclass soccer teams at Stanford.

Stanford has taken the following stand in regard to the strained athletic relations with California. Either the old agreement concerning football must be re-enacted or the matter must be submitted to an arbitration board.

President Jordan has been granted a leave of absence for next semester and he will tour Europe in the interim of the intercollegiate peace movement.

The Stanford band will leave here for Los Angeles next Thursday to give a series of concerts at various places in Southern California.

E. A. Dole, the youngest member of the famous Dole family of athletes of Riverside, many of whom have attended Stanford, is struck of the Cornell varsity eight this year.

The baseball field day that is to be held here next Thursday will be the first of its kind ever held in the West.

CHINESE TEAM HERE.
SAN FRANCISCO, March 22.—(By A. P. Night Wire.) The All-Chinese baseball team of Honolulu arrived here today on the steamship China to make a tour of the United States. The first game will be played Wednesday against Stanford's team, and the Sacramento Coast League will be met the next day.

Two Big Clubs.
CLASH OF ARMS ENDS
WITH HONORS ABOUT EVEN.

William Schimpf, Chairman of the Contest Board of the Automobile Association of America, Greets Frank A. Garbutt, President of the Western Automobile Association, in First Conference—No Bloodshed.

BY RICHARD C. SMITH.

WILLIAM SCHIMPF, chairman of the Contest Board of the Automobile Association of America, and Frank A. Garbutt, president of the Western Automobile Association, met face to face yesterday. This first conference was held in the office of Secretary S. C. Geary of the Automobile Club of Southern California.

The central figure in automobile racing in the West, and the man around whom motor contests center in the West, clasped hands, spoke their defiance in a flash and then sat down to the first conference ever held between the two leaders.

The bitter contest that was predicted failed to make the first meeting unpleasant. Instead of war, two hard-headed, sane business men met on common ground and determined to settle all differences.

This first conference was potent. It proved that Chairman Schimpf and Frank Garbutt can thrash out the grievances that really do exist, and can then arbitrate. There is to be no drastic action, and no pick for either. The A.A.A. is not to be throttled by Garbutt, and the W.A.A. will not be killed by Schimpf.

AFFILIATION SURE.

Affiliation looms large on the horizon. There will be no break between the two associations. The word "outlaw" was not mentioned. No threats were made. The big chiefs strove to bring order out of chaos, and the future of automobile racing, instead of being menaced, was assured.

Arbitration between these two men may mean a conference lasting a week. Chairman Schimpf and President Garbutt will meet many times, but the first meeting of the man from the East to the man of the West settled one and for all the question of an open rupture. There will be peace and peace without dishonor to either side.

Squaring away as if for a battle, the two champions began a contest unique in motor-racing annals. There was a give-and-take argument, with each contender armed with a keen blade. Mooted points were conceded.

NO WAR TALK.

Action was spelled in every sentence that followed. It was a conference with each trying to reach terms of peace. Not once did either say "you must" or "I will." They met on common ground and the conference was adjourned with every reason to expect an amicable finish.

Taxation without representation has been the contention of those who formed the Western Automobile Association. The success of the new automobile racing body has attracted the attention of the entire country.

With the avowed intention of settling all differences between the A.A.A. and the W.A.A., Chairman Schimpf is here, not to sue for peace, but to organize a conference which may bring the East and the West closer together. He has left the hotbeds behind and is here to argue points of law.

WHAT GARBUTT WANTS.

Here is the rock on which all relations between the two big associations may be broken: Chairman Schimpf believes in the strict interpretation of the rules of the A.A.A. So does President Garbutt. If the settling of the present trouble is left with the president of the W.A.A. there will be either affiliation of the two associations or a strong representative contest board, composed of the members of the W.A.A., to handle racing in the West.

Now is the time for all good men to rally to the support, not of the A.A.A. or the W.A.A., but of the cause of automobile racing. With an Owensmouth road race about to come off, and with the Los Angeles-San Francisco contest scheduled for this year, much depends on the action taken this week. Let Garbutt and Schimpf settle this affair.

The contest yesterday proved conclusively that the interests of the W.A.A. have been placed safely in the hands of President Garbutt. It also proved that Chairman Schimpf will not be stiff-necked and arbitrary, but will rather listen to reason and settle all our differences with honor to us and without an unconditional surrender.

SLIPS INTO TOWN.

Chairman Schimpf might have been met with a brass band and an automobile pageant. Instead he decided to slip into town without a flourish of trumpets. He could have been driven from his train in the finest limousine in the city. Instead he took a depot car and with Mrs. Schimpf and their son, quietly secured rooms at the Hotel Alexandria.

The man on whom the eyes of the entire racing world are focused today waited, not knowing just what would happen. His faithfulness impressed those who met him yesterday and his blunt way of stating his point won him friends every time he spoke. He came, he saw and he was convinced.

BOTH WILLING.

Armed for a combat if necessary, Chairman Schimpf was prepared for arbitration. He met Frank Garbutt, a man who has several times willingly risked his life, who is as fearless as the outdoorsman, and with eyes on a level, they stood each other up, and both voluntarily agreed to fight this out along one line if it takes all summer.

There was nothing to hide. It was not a question of fighting for a point of honor. It became a matter of business. The contention of the Western Automobile Association that we must have a representation in the West sounded reasonable to Schimpf. The Contest Board chairman said he wants peace and was willing to concede points.

There was no need for a sword. Quick to grasp the situation, President Garbutt relieved the tension by smiling. That smile which Perry Walker, the western representative of the A.A.A., found so much fault with, seemed to please Chairman Schimpf and proved the pivotal point of a situation which

Then with a genuine laugh that came from his heart, Chairman Schimpf said: "May all our differences vanish, and be drunk to the health of President Garbutt and said he was certain this conference will result in a clearer vision for all those who have been concerned in the present turmoil."

Anson in Limelight.

(Continued from First Page.)

ture having to do with the oil industry of California, will headline the bill at the Missouri for the remainder of the week, beginning tomorrow. This educational film has just been completed and this will be the initial presentation. A pretty love story is incorporated in the picture, that is told in a pleasing way. The story is of a young man who starts as an oil driller and by his pluck and energy, works his way to the top, a home of great interest, in oil of father, the same under control and later destroyed by fire.

Another picture of more than passing interest, "Mona Lisa," which is said to be an unusually beautiful hand-colored production, and as the same picture is based upon the celebrated portrait.

SMOKED HALF-MILLION CIGARS.

A German Consul, who has had Tom Thomsen, Mayor of Happonheim, Nothing Else Could Give.

[The Times] Herr Hans, the German consul, died in Berlin a few years ago, proud as the last of his reputation as a devotee of "my Lady Nicotine."

"During my long lifetime," he wrote shortly before he smoked his last cigarette, "I have smoked over half a million cigars, an average of more than twenty-two daily for many years. I have thus consumed 15,000 boxes of such cigarettes as nothing else could ever have given me and which was well worth the 10,000 that purchased them. My cigars have been the one source and source of my life, and my only regret in leaving it is that I cannot bring my record up to 1,000,000."

And even this amazing feat was quite routine. Into college by the achievement of Herr Hans, an American, whose record verges on the incredible. From the age of 21 Herr Hans kept an exact account of all he bought and what he paid for it. Thus his record book shows that in twenty-seven years (from 27 to 54) he consumed 15,000 boxes of cigarettes, a modest average of less than three glasses a day.

From his fifteenth birthday he abstained his beer, but continued to smoke more and more furiously until when he died in his seventy-third year he had consumed exactly 15,000 boxes. Of the whole number, it is said, 15,000 were given to him; as the rest he had spent the equivalent of 12,000, or roughly a penny apiece.

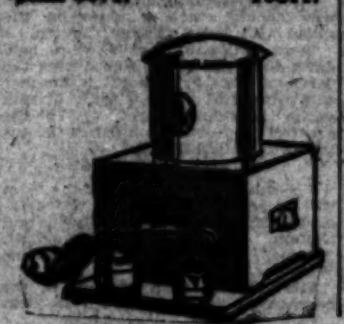

Such a record was only four inches long (these were probably much longer). Herr Hans must thus have reduced to about an average of 15,000 boxes, or forty miles in length and when he was nearly thirty years old at his life in the present. As the two champions died at the age of 54 and 72 respectively, it seems clear that excessive cigar smoking is not necessarily a shortener of life.
